MARMITE

Catalogue
2025/2026

Components of your success

Composed by Marmite

We are a leading international manufacturer of top-quality bathtubs, washbasins and shower trays made of superior material Mineral Composite. For 50 years, we have been handling OEM and ODM products, delivering them to our clients all over the world.

Marmite is a combination of many elements, including individualised model of cooperation, unique expertise, superior material, quality, production capacity, design and other key factors. Our ability to compose, coupled with continued improvement, allow us to offer winning solutions tailored to the customers' needs.

Component 1

An individualised model of cooperation

Every cooperation is individual. So are the needs of your business. Irrespective of your expectations and plans, we will support you at every stage of implementation: from the design up to final product. We ensure that each product fulfils your needs and the market requirements.

We distinguish 3 models of cooperation.

1 OEM (Original Equipment Manufacturer)

Individual products or product families from our standard portfolio are ready to be offered for the customer. This is a time-saving option as the selected washbasins, shower trays or bathtubs are absolutely ready to be launched to the market. Each product in our offer has been meticulously developed, tested and implemented. Our technology suits both big volume production and very limited batches. We proactively develop our own catalogue of washbasins, shower trays and bathtubs. At present the catalogue contains 700 products; every year we develop 100 novelties and provide geographic or channel exclusivity on certain products of the client's choice.

1. **Selection of an existing product from the standard portfolio**
2. **Adjustments of the product (product options, branding, packaging, equipment, colour)**
3. **Production and delivery**
4. **Long-term cooperation**

2 ODM (Original Design Manufacturer)

Marmite adjusts and manufactures the products hand in hand with the customer. We submit the client's design with technical specification to our internal process which includes research and development, design and prototype, tools preparation and, finally, mass production. Our designers are an integral part of the company which guarantees that our design propositions are fully feasible and best streamlined for our technology. This guarantees production efficiency without compromising design aesthetics and product safety.

1. **Request for product specified by the client**
2. **Product engineering**
3. **Implementation**
4. **Production and delivery**
5. **Long-term cooperation**

3 Exclusive Design

Marmite offers the possibility of designing and implementing a new product individual project, created with a specific client in mind. In the course of the creating process, we consider the customer's needs, the market trends and the end-user's preference, to offer market-winning products. We co-create with the customer at each stage of the design process. The designs are delivered to the customers within 2 weeks and, after first revisions, they can be immediately developed into a prototype. It takes only 12 weeks between the customer's approval and start of the manufacturing process.

1. **Request for bespoke product**
2. **Cooperation in product development**
3. **Product engineering**
4. **Implementation**
5. **Production and delivery**
6. **Long-term cooperation**

The new product development process

Many years of experience in product implementation have made our NPD process well organised and it is based on:

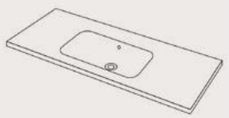

- Process built into the SalesForce system.
- Metrics of lead times and development costs.
- Transparency for the customer at every stage.
- Full compliance and safety of newly implemented products (in-house lab & certifications in external laboratories).
- Preceded by market and trend analysis, supported by the knowledge and experience of the design and R&D team.

Lead time

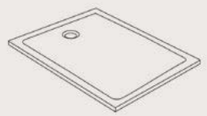

The first stage - designing and costing - takes about 2 weeks. It may take longer if we do prototypes for the customer. After accepting the offer and signing the contract, we move on to the implementation and testing phase, which takes approximately 12-15 weeks for bathtubs, 8 for washbasins and 9 for shower trays. The final lead time may vary depending on the complexity of the project, variants and special production requirements.

14-17 weeks

10 weeks

11 weeks

NEW PRODUCT REQUEST

Design

Creative design or adaptations of the existing project. 3D modelling & 2D technical documentation.

Feasibility

Feasibility study, building bill of materials, packaging and logistics options, detailed input to cost calculation.

Pricing

Calculating costs and pricing proposal.

Offer

Sending out the offer for customer approval.

Acceptance of the project & investment

Implementation

Master moulds and production tools preparation.

Testing and Validation

Initial sample production, validation and tests in the laboratory.

Product acceptance

LAUNCH First production to order

Component 2

2M pcs production capacity

Our modern and extended range of machinery consists of 8 production lines with a production capacity of 2,000,000 products a year. Our plants are located in Poland and Mexico and employ nearly 800 people. We operate three shifts for 24 hours, five days a week.

The effective planning and work organisation in the production plants allow us to maintain production scalability. As a result, we are able to meet orders tailored to your scale, from shorter and less complicated series to batches consisting of thousands of products. We attribute the reliability of our production to the extended, innovative production system as well as repeated testing of the products and looking for modern solutions.

Component 3

Strategic partnership

We carry out various projects but forging long-term business relations is of special significance to us. As a result, we can better understand our clients' needs. This allows us to provide the best customised solutions. Each time, we develop individual models of cooperation. For years, strong partnership relations have allowed us to enjoy the trust of the biggest brands in the industry.

By forging relations based on mutual respect and trust, we apply transparent cooperation rules. Each of our existing or potential clients can make an appointment to tour the plant or visit our showroom to see the manufacturing process in the making and learn even more about the company. If this sounds like a good idea, you are more than welcome to visit us!

We provide comprehensive and personalised customer service in many languages. Our international sales team operates in Europe and the US. We also offer the support of our merchandisers who help to streamline your products' sale.

Component 4

Unique expertise

We are our clients' partner and an expert in what we do. We are willing to share the knowledge of the trends and innovations. Focusing on end-user needs, we are able to offer products that become valuable elements of our customers portfolio.

When working on a product, our experts analyse the construction and design as well as the business and logistic aspects, and the time required for the implementation. All our clients can expect professional support at each stage of the decision-making and implementation processes.

Component 5

Design

Marmite has an in-house design team which examines and identifies trends emerging on the bathroom market.

We create products with the end users in mind. We want them to evoke a sense of satisfaction, relaxation and safety. In our opinion, beautiful and functional design should be available to everyone. The volume of our operations enables us to convey this vision on a mass scale and provide our customers with an offer that their clients will love.

Our regular portfolio consists of 2400 designs. However, we keep extending it, adding approximately 300 new models every year.

Our projects enjoy numerous sales successes and appreciation all over the globe, at the most prestigious design contests.

MINERAL
COMPOSITE

Component 6

Superior Material

Some 250 million years ago, the Earth was a place of much greater volcanic activity than it is today. Limestone strata were transformed into dolomite under high temperatures and enormous pressure. This rock is very hard and durable material with superior characteristics.

Thanks to the technology developed by Marmite, the rock formed millions of years ago has been turned into resistant and beautiful modern products.

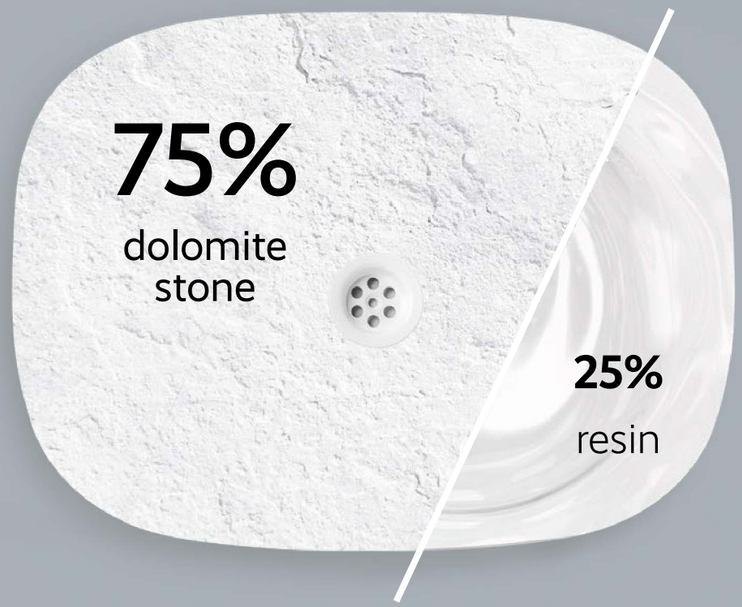

The combination of dolomite and elastic resin imparts unparalleled durability and impact-resistance to Mineral Composite. The resin also provides unlimited possibilities for moulding products made from this technology.

MINERAL
COMPOSITE

Its main constituent is calcium and magnesium carbonate – $CaMg(CO_3)_2$ – a snow-white mineral with a crystalline structure. Mineral Composite is a material that fully utilises the extraordinary properties of dolomite.

The external surface is covered with gelcoat. This type of coating is also applied to the surface of yacht hulls and wind turbine blades – places exposed to constant contact with the elements of wind and water.

MINERAL
COMPOSITE

Warmth

Due to the combination of natural heat conduction and efficient temperature insulation, Mineral Composite absorbs warmth from the water and air around it. Products made from Mineral Composite maintain an optimal temperature for a long time, they are always warm to the touch and provide unprecedented comfort in the bathroom.

Durability

Mineral Composite is a unique structure, where the dolomite stone is reinforced with flexible binder of resin which ensures resistance under load, damage from impact and the effects of high and low temperatures. It guarantees security of transport, installation and everyday use. Products remain in a brand-new condition for many years.

Sound insulation

Mineral Composite offers exceptional acoustic absorption. This feature comes from the high particle density of the material. It prevents the sound of water striking a surface, and so improves living comfort and convenience of use signficantly.

Precision

With a 0-3 mm tolerance, and a minimum radius of 2 mm, Mineral Composite enables an extensive range of shapes to be created that frees up the imagination of designers. Radiuses, dimensions and edges cease to be a challenge and material precision is easy to achieve. Perfect fit to furniture and shower enclosures go beyond any other traditional material.

Design flexibility

The material's innovative structure gives freedom of form, therefore countless designs are available. It offers a variety of absolutely unique shapes in classic and modern style. Natural stone surfaces and thin walls are the elements of excellence that set Mineral Composite apart.

Superior finish

Thanks to smooth finish, Mineral Composite products are always pleasant to the touch. Our sinks, shower pans and bathtubs are resistant to even the most extreme conditions due to the inherent strength of the gelcoat surface. Its imperviousness to bacterial growth, absorption of water and chemical substances, ensures long lasting quality and ease of care.

Quality

Marmite products meet all legal standards and safety regulations required in the bathroom market. The company has an in-house laboratory which ensures the products' quality. It works towards further product innovations. We test all the material components as well as the physical and chemical properties of all our products.

Our certifications

ISO 28000

ISO 14001

ISO 9001

CE
Product complies with European norms

IAPMO
Product complies with Uniform Plumbing Codes

Antibacterial according to ISO 22196

Sound insulative
VDI 4100 and DIN 4109 norm

Resistance to changes of temperature
According to European Norm EN 14688, EN 14527 and EN 14516

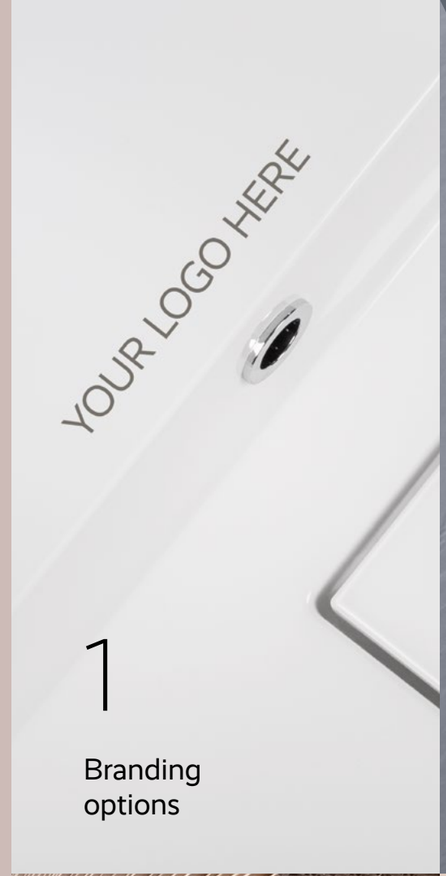

ECO packaging

Component 8

Product option flexibility

It is possible to adjust a product to the client's expectations and brand's standards.

Each project opens up opportunities for the clients to customise their products: overflows, drains, colours, covers and accessories. We develop individual packaging, labels and manuals while the products are custom-branded.

Component 9

Global Logistics

Our products are distributed all over the world. We continuously improve our logistic processes in order to extend the range of deliveries. We tailor the type of delivery to the clients' individual needs, from containers and full-truck deliveries to single product shipments.

To respond to the individual needs of our clients as effectively as it is possible, we offer various packaging and palletisation methods.

Owing to the excellent organisation of our logistic processes and long-term cooperation with transport companies, the deliveries are continuous and timely.

Component 10

Education and marketing support

We offer marketing materials: pictures, technical drawings, 3D files, and videos that customers can use in their communications.

Marmite organises trainings for the clients to share information on how to promote the products and to educate about the benefits. The training sessions can be held on the client's premises, at Marmite or online. We also have e-learning platform for self-education purposes. The type and range of each training is tailored to the client's individual needs.

The Marmite training team consist of 6 professional trainers supported by over a dozen people from the Sales Department. We offer trainings in 6 languages. Each training is underpinned by customised training materials.

To provide easy and quick access to our product portfolio, we have developed ProMarmite: an e-business tool for our customers. This part of our website also provides access to all the required technical data.

Component 11

Respect for nature

At Marmite, we shape a better future, operating with care for the natural environment in mind. For years, we have been involved in sustainable development that has been included in the company's long-term plans. Regardless of the stage of product design, production, or shipment, we follow the principles of Eco-Responsibility.

Our commitment to environmental stewardship is transparent and verified by external reputable entities. It provides credibility, ensuring that our efforts are not just greenwashing. Additionally, it fosters transparency and accountability, driving continuous improvement and innovation in our environmental practices.

Pro - ecological initiatives

We continuously invest in new equipment, improve our facilities for cleaner, more efficient production, and evaluate every capital investment from an environmental point of view.
Our dedicated efforts align with four essential lines of action:

Optimizing the use of resources.

Each Marmite product is designed to minimize the consumption of raw materials and to reduce the volume of production scrap. Accurate raw material dosage and mould loading systems prevent overproduction and reduce production waste.
Our packaging is made to measure, largely composed of recycled materials.

Minimizing harmful emissions.

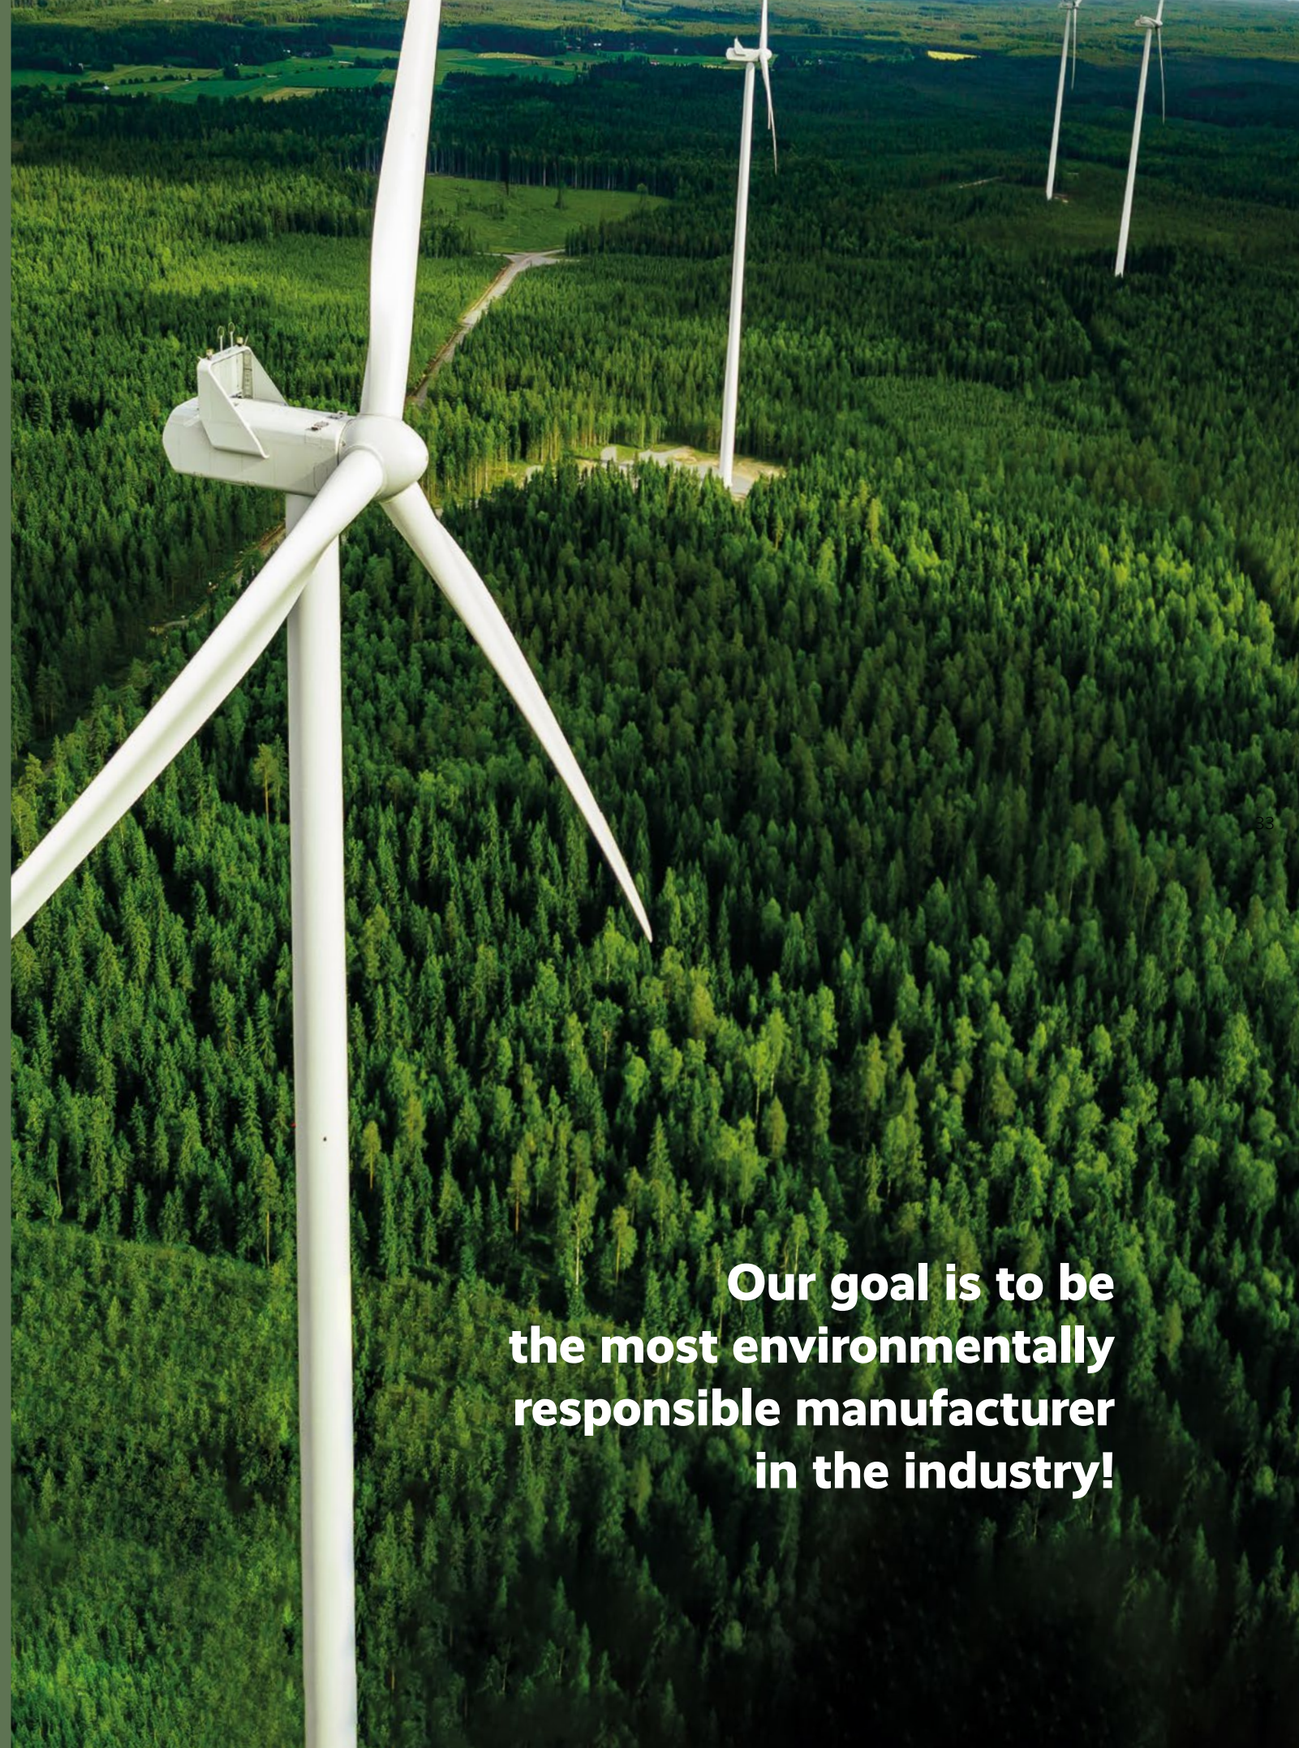

Marmite's manufacturing and office power supplies use 100% green energy from renewable sources: water, wind, sun and biogas.
We continuously strive to reduce emissions into the environment by optimizing both product and waste transportation, which benefits logistics by reducing CO2 emissions.

Decreasing energy and water consumption.

We constantly seek new ways to reduce water and electricity consumption. We introduce technical and organizational improvements that bring substantial, measurable changes year after year.

Reducing and reusing waste production.

Thanks to advanced technology, our hazardous waste is recycled in-house, while other production waste, such as paper, steel, plastics and some scrap materials, is successfully recycled externally for a second life.

Our goal is to be the most environmentally responsible manufacturer in the industry!

Component 12

Member of ES Group

We are part of ES Group, created by Cranemere, an American investment holding company. ES Group consists of best-in-class companies and manufacturers of mineral composite material. With the Group's support, we continue to exchange experience and inspiration. Together, we develop our skills, test new technological solutions, and discover the possibilities offered by our materials.

Our common goal is to provide top-quality products and involve a team of world-class experts in engineering, technology, production, product development, and customer service. As part of this dynamic Group, we have significant potential to invest in innovation, powered by **The Brainstone Lab**, with three R&D centers: two in Europe and one in the USA.

We pride ourselves on our closeness to markets to develop the required portfolio, our extensive sales and delivery network, and our nine production centers across Europe, America, and Mexico. This collaboration ensures we remain at the forefront of our industry, consistently delivering excellence to our customers.

ES GROUP
Extraordinary Surfaces

New designs created by Marmite

Every year, we create approximately 300 new models, responding to the customer needs and latest consumer trends. 100 of them are designed for catalogue.
All they need is your logo.

Colours

Our colours are inspired by latest trends, endowing the products with a unique character and making them a perfect match with the decor of a modern bathroom. While this selection is our standard offer, Mineral Composite allows us to create products in any colour (in full- or bi-colour option). Consequently, we prepare colours tailored to the customer's expectations at his or her request.

Washbasins

Shower trays

Bathtubs

*** All coloured shower trays require feasibility confirmation prior to placing an order, and black colour (36) is available only for shower trays with texture.**

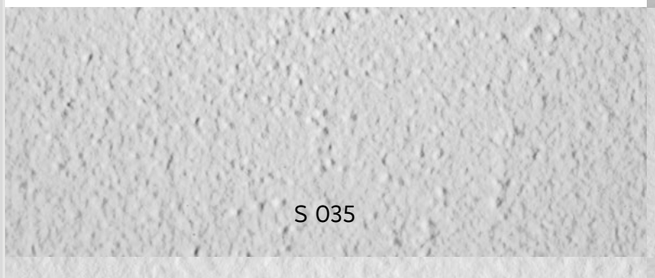

**** Coloured gloss washbasins are available only for selected countertop models.**

Textures

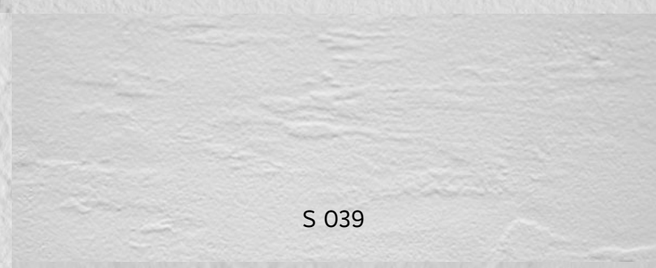

The underlying force behind our designs is constant attention to the textures that we select. We offer a wide range of textures, inspired by the beauty and richness of nature, reproduced with great precision. However, Mineral Composite offers unlimited possibilities so we can also prepare a texture designed with you in mind.

Cleaning and Care

Mineral Composite is easy to clean!

For standard cleaning of gloss and matt finishes alike, we recommend widely available, non-abrasive cleaning products. Owing to its natural origin, the material is suitable for cleaning with natural, inexpensive agents like vinegar and water with lemon. Matt finishes may occasionally require a mildly abrasive product.

Our material is resistant to:

Cosmetics

e.g. hair dye, lipstick, nail polish (it should be cleaned immediately after soiling)

Detergent ingredients

e.g. acids, alkalis, bleaching agents, methylene blue

Everyday use stains

e.g. juices, cigarette stains, crayons

The material has the benefit of being easily repairable.

Minor defects like chips and scratches can be removed; individual users, can use one of the repair kits recommended by Marmite.

Watch our movie

Repair Kit

For professional repair of damage and scratches.

Key benefits:

- All colours available
- 3 months of use suitability
- All necessary components are included

Touch-up Stick

A new means of quick and easy repair of minor damage and scratches inflicted at home.

Key benefits:

- Safe to use and environmentally friendly
- 5-year shelf life
- Easy to use by inexperienced users

Polishing Paste

Polishing emulsion recommended for Mineral Composite products.

Key benefits:

- Removes scratches
- Refreshes the gloss
- Free of silicone, wax and aggressive thinners

Polytop impregnation

Recommended for impregnation and regeneration of matte products made of Mineral Composite, with a gelcoat finish.

Key benefits:

- Removes scratches and dirt
- Renews the surface
- Protects against wear

Discover ProMarmite!

To provide easy and quick access to our product portfolio we developed an e-business tool for our customers - ProMarmite. It allows you view and save products from our market-dedicated portfolio. In this part of our website you also have access to all necessary technical data. It's available to log into from any device, including smartphone, PC and tablet.

ProMarmite offers you:

- access to detailed 2D and 3D files (CAD: DWG)
- expanded searching options in order to make it easier to find specific products
- possibility of creating catalogues and notes, which can be edited at any time
- more products visible, especially those for specific markets
- e-learning platform

To get access to the ProMarmite platform please contact our sales team.

a list of Goods offered by the Seller to the Buyer together with indices and net prices of these Goods

Buyer
an entrepreneur who concludes an Agreement with the Seller in the course of the professional or business activity of the Buyer

GTCS
these General Terms and Conditions of Sale

Order Confirmation
confirmation by the Seller of accepting the Order for execution, submitted by the Seller to the Buyer in writing or in document form - an e-mail message

Seller
MARMITE Spółka z ograniczoną odpowiedzialnością with its registered office in Zakrzewo, at ul. Przemysłowa 4, 62-070 Dopiewo, Poland, entered into the register of entrepreneurs of the National Court Register kept by the District Court Poznań – Nowe Miasto i Wilda in Poznań, VIII Commercial Division of the National Court Register, under KRS number: 0000581685, NIP [tax identification number]: 7831732117, BDO number: 000024812, share capital PLN 19,851,800.00

Party
the Seller or the Buyer

Parties
jointly the Seller and the Buyer

Goods
any products on sale at the Seller, in particular washbasins, shower trays and bathtubs which are the subject matter of each Agreement

Good
unit of each Goods

Agreement
each agreement for the sale of Goods concluded by the Seller and the Buyer on the basis of the Buyer's Order and the Seller's Order Confirmation, pursuant to the terms and conditions set out in the GTCS, the Price List and the Detailed Terms and Conditions (if applicable)

Detailed Terms and Conditions
detailed commercial terms and conditions of sale of the Goods (including logistical and quality terms and conditions) presented by the Seller to the Buyer and accepted by the Buyer, which supplement the GTCS and the Price List

Order
an offer made by the Buyer to the Seller - within the meaning of the Act of 23 April 1964, Civil Code - to purchase Goods from the Seller on terms and conditions set out in GTCS, Price List and Detailed Terms and Conditions (if applicable)

Business days
weekdays from Monday to Friday, with the exception of those days which are public holidays in the Republic of Poland.

§2 General provisions

1. The GTCS regulate the rights and obligations of the Parties with respect to the sale of the Goods by the Seller to the Buyer. The GTCS shall not apply to the Buyer being a natural person, who purchases the Goods for the purpose not related to professional or business activity, or when it clearly results from the Agreement that it does not have a professional character for the Buyer, resulting in particular from the subject of the Buyer's business activity.

2. The sale of Goods by the Seller to the Buyer shall be governed by the GTCS, the Detailed Terms and Conditions (if applicable) and the Price List; the GTCS shall form an integral part of each Order and each Agreement.

   In the event of any discrepancies or contradictions between the provisions of the GTCS, the Detailed Terms and Conditions, the Price List or arrangements between the Parties made in document form, the following hierarchy (priority of application) shall be established: arrangements of the Parties, Detailed Conditions, Price List, GTCS.

3. The Seller shall not be bound by any terms and conditions of purchase (including template agreement, regulations) applied by the Buyer. The terms and conditions referred to in the preceding sentence shall not apply to the sale of Goods by the Seller to the Buyer.

4. The GTCS become binding for the Buyer at the moment of placing the Order or at the moment of the conclusion by the Buyer and the Seller of any Agreement for the sale of Goods (depending on which occurred first). The GTCS shall apply to all Agreements concluded between the Parties.

5. Information provided by the Seller in any format and form, in particular announcements, advertisements, price lists and the so-called commercial terms and conditions (including the Detailed Terms and Conditions), do not have the nature of an offer within the meaning of the Civil Code, however they constitute an invitation to conclude an Agreement on the terms and conditions indicated in such information, and in the absence of such information - on the terms and conditions indicated in the GTCS.

6. The Buyer is aware and accepts that the Goods require special conditions of transport, storage and installation in accordance with the instructions prepared by the Seller. The aforementioned instructions are available on the Seller's website under the link: https://marmite.eu/downlaods/ or will be made available to the Buyer in another form. The Buyer is obliged to read the above-mentioned instructions before placing the Order and to comply with them during transport, storage and installation of the Goods. The Seller has the right to change the aforementioned instructions, of which the Seller undertakes to inform the Buyer in document form, and the Buyer is obliged to comply with them.

7. If the Seller is to produce the Goods on the basis of designs provided by the Buyer and/or with the use of graphic indications, logos, trademarks sent by the Buyer, the Buyer represents and warrants that as of the date of their delivery to the Seller, it shall be entitled to copyrights, in particular proprietary copyrights as well as industrial proprietary rights to, respectively, designs of the Goods, graphic indications, logos, trademarks to the extent necessary to commission the production of the Goods to the Seller and sale of such Goods to the Buyer by the Seller. The Buyer authorises the Seller to use, respectively, designs of the Goods, graphic indications, logos, trademarks, sent to the Seller, to the extent necessary to order production of the Goods by the Seller and sale of these Goods to the Buyer by the Seller, for the whole period of cooperation between the Parties. The Buyer represents and warrants that the Seller's use of, respectively, the designs of the Goods, graphic indications, logos and trademarks submitted by the Buyer for the purposes indicated in the preceding sentence, is free of charge. The Buyer shall bear full liability towards the Seller for lack of legitimacy of the aforementioned rights to, respectively, designs of the Goods, graphic indications, logos and trademarks, in particular it shall release the Seller from any liabilities towards third parties related to production of the Goods on the basis of designs of the Goods, graphic indications, logos and trademarks provided by the Buyer, and shall redress the entire damage incurred by the Seller in this respect. Furthermore, the Seller shall not bear any liability for the content and form of the aforementioned graphic indications, logos and trademarks sent by the Buyer, as well as for the usability, functional and durability parameters of the Goods manufactured in accordance with the designs and specifications provided by the Buyer.

8. The Buyer is aware that any Goods manufactured by the Seller at the Order of the Buyer are manufactured specifically for the needs of the Buyer, and therefore no return or exchange of Goods is envisaged, unless they have been manufactured by the Seller inconsistently with their specification or assurances included in the guarantee document referred to in § 5 clause 1 of GTCS.

9. In the event that the Parties intend to order new goods that are not covered by the Detailed Terms and Conditions or the Price List, the Parties shall cooperate in the development of such new goods. Once the Parties have accepted the new goods, the new goods may be introduced into the Price List or the Detailed Terms and Conditions.

§3 Orders and sales of Goods

1. Placement of Orders by the Buyer shall be in writing or in document form - an e-mail message to the contact details provided by the Seller. The Order constitutes an offer within the meaning of the Polish Civil Code.

2. The Buyer's Order shall contain indices and quantities of ordered Goods. The Buyer's Order constitutes an offer to purchase the Goods by the Buyer from the Seller at the price specified in the Detailed Terms and Conditions valid on the day of placing the Order, and in the absence of the Detailed Terms and Conditions - at the price specified in the Price List valid on the day of placing the Order, increased by VAT tax at the rate applicable for a particular transaction on the day of issuance of VAT invoices, and under other conditions specified in the GTCS and the Detailed Terms and Conditions. Placement of the Order by the Buyer shall at the same time constitute acceptance of the GTCS and the Detailed Terms and Conditions (if applicable).

3. If the Buyer places a faulty Order (i.e. incompatible with the GTCS or the Detailed Terms and Conditions, e.g. the Order does not meet the logistics minimum) or in case of other doubts of the Seller regarding the wording of the Order, the Seller shall, within 3 Business Days from placing the Order, inform the Buyer about this fact.

4. If the Seller accepts the Order, the Seller shall, within 3 (three) Business Days from the date of receipt of the Order, provide an Order Confirmation to the Buyer, by fax or e-mail. Confirmation of the Order by the Seller is also the actual commencement by the Seller of the execution (performance) of the Order placed by the Buyer. Not confirming the Order by the Seller does not result in any obligations on the side of the Seller regarding the sale of Goods covered by the Order. The Agreement is concluded at the moment of the Order Confirmation by the Seller.

5. The Seller may make acceptance of the Order conditional in particular on payment of the Buyer's outstanding financial liabilities with interest, cessation of other infringements by the Buyer and elimination of their effects or on the Buyer's provision of security of payment in the form agreed between the Parties or prepayment of the Order in the amount indicated by the Seller.

6. Withdrawal (cancellation) of the Order by the Buyer after acceptance of the Order by the Seller in accordance with clause 4 above shall always require the Seller's consent expressed in document form.

7. The Buyer represents that all Orders placed by it or its employees, affiliates and subcontractors are binding for the Buyer for the period of 15 (fifteen) Business Days from the date of their submission to the Seller and the Buyer undertakes not to raise any claims in this respect towards the Seller.

8. The date of execution of the Order for specific Goods is indicated in the Detailed Terms and Conditions, however, the Parties may agree on a different, individual date during the acceptance of the Order (which shall be confirmed by the Parties in writing or in document form - an e-mail message). If the Parties have not agreed on the Detailed Terms and Conditions, the date of execution of the Order shall be agreed between the Parties at the time of placing the Order (which shall be confirmed by the Parties in writing or in document form - an e-mail message). The Seller shall inform the Buyer about the actual date of release of the Goods, and the Buyer is obliged to prepare for the collection of the Goods at the time indicated by the Seller.

9. The place of delivery and release of the Goods by the Seller is the Seller's warehouse in Swadzim, Poland, during the working hours of this warehouse, and the Buyer, at its own cost and risk, is obliged to collect the Goods and arrange transport of the Goods from the aforesaid warehouse (EXW Swadzim, Incoterms 2020), unless something else results from the Detailed Terms and Conditions or the Parties set other, individual terms and conditions for delivery or transport of the Goods (which shall be confirmed by the Parties in writing or in document form - an e-mail message). The Seller shall be responsible for loading of the Goods at the Seller's plant in Zakrzewo for the means of transport provided by the Buyer.

10. The Seller shall mark the Goods and provide the Buyer with documentation relating to the Goods in accordance with the laws in force in the territory of the Republic of Poland, unless otherwise specified in the Detailed Terms and Conditions or the Parties have agreed otherwise in a separate agreement.

11. The Seller shall provide and bear the cost of standard cardboard packaging of the Goods.

§4 Collection of the Goods

1. The Buyer is obliged to collect the Goods at the place of collection agreed pursuant to § 3 clause 9 of the GTCS and within the time limit agreed pursuant to § 3 clause 8 of the GTCS.

2. Upon the release of the Goods to the Buyer or to a carrier indicated by the Buyer, the risk of loss or damage to the released Goods passes onto the Buyer.

3. At the time of release of the Goods to the Buyer or to a carrier selected by the Buyer, the Buyer is obliged to check the quantity and quality of the (collective) packaging of the Goods. Any reservations in the aforementioned scope shall be noted by the Buyer on the delivery note (or other document confirming the release of the Goods) and confirmed on this document by an employee of the Seller, and in the case of delivery of the Goods to a place other than the Seller's plant / warehouse - confirmed on this document by the Seller's driver and sent to the Seller in document form - an e-mail message at the latest on the next Business Day following the date of release of the Goods and under pain of losing the right to make reservations in this scope at a later date. The absence of reservations of the Buyer on the delivery note (or other document confirming the release of the Goods) confirmed by an employee of the Seller or the Seller's driver and the failure to send these reservations in document form - an e-mail message to the Seller within the aforementioned time limit shall be deemed as the collection of the Goods without reservations as to the quantity and quality of the (collective) packaging.

4. Within a period of 20 (twenty) Business Days counted from the release of the Goods to the Buyer or to a carrier chosen by the Buyer, the Buyer shall carefully inspect the quantity and quality of all Goods. Any reservations in the aforementioned scope shall be sent to the Seller in document form - an e-mail message at the latest within the period of 20 (twenty) Business Days counted from the release of the Goods to the Buyer or to a carrier selected by the Buyer, under pain of losing the right to make reservations in this scope at a later date (except for hidden defects). Lack of reservations of the Buyer within the time set out above shall be deemed as the collection of the Goods without reservation as to both the quantity and the quality of these Goods.

5. Making reservations as to the quantity or quality of packaging of the Goods or the Goods shall not release the Buyer from the obligation to pay the price by the date specified in the VAT invoice covering the sale of the part corresponding to the collected Goods and not covered by the aforementioned reservations.

6. The Seller shall consider the Buyer's reservations referred to above within 5 (five) Business Days from the date of their submission to the Seller. If the Seller accepts the Buyer's reservations concerning quantity or quality of the Goods - the Seller undertakes to supplement the missing quantities or deliver the Goods free from defects without undue delay, no later than within 20 (twenty) Business Days from the date of accepting the Buyer's reservations by the Seller, unless the Parties agree on a different date for supplementing the missing quantities or delivering the Goods free from defects or a different manner of settling the situation (which shall be confirmed by the Parties in writing or in document form - an e-mail message).

7. The Order execution date shall be deemed met by the Seller if the Seller has made the Goods available to the Buyer for collection within the time limit specified pursuant to § 3 clause 8 of the GTCS and at the place of collection of the Goods specified pursuant to § 3 clause 9 of the GTCS, unless the Goods have not been collected for reasons for which the Seller is responsible.

8. In the event that the Buyer delays the collection of the ordered Goods for reasons for which the Buyer is responsible, the Seller shall be entitled:

   a. at the Buyer's expense and risk, to deliver the ordered Goods to the Buyer's premises, which shall not exclude the Seller's right to redress the damage resulting from the delay, or

   b. to store the Goods in the Seller's warehouses at a storage rate of PLN 50 (fifty złoty) net for each pallet of the ordered Goods for each commenced week of storage in the Seller's warehouses or give the Goods for storage at the expense and risk of the Buyer; and

   c. to issue a VAT invoice documenting the sale of the Goods and send it to the Buyer, and the Buyer is obliged to pay the said VAT invoice on the due date, despite the Buyer's failure to collect the Goods from the Seller.

9. In the event that the Seller fails to meet the deadline for execution of the Order due to circumstances for which the Seller is responsible, the Buyer is obliged - before rescinding the Agreement - to grant the Seller an additional period of at least 15 (fifteen) Business Days from the date of the additional request, for execution of the Order confirmed by the Seller.

10. The Seller reserves the right to release the Goods in parts (batches) to the Buyer, and the Buyer agrees thereto.

11. The Buyer warrants that persons collecting the Goods at the request of and/or on behalf of the Buyer at the Seller's plant or warehouse, as well as persons at the place of delivery of the Goods, will be authorised to collect the Goods on behalf of the Buyer and the Buyer therefore represents that it will not make any reservations in this respect towards the Seller.

§5 Quality guarantee and liability of the Seller

1. The Seller grants the Buyer a quality guarantee under the terms and conditions specified in the guarantee document published on the Seller's website under the link: https://marmite.eu/ downlaods/ or provided to the Buyer by the Seller in another form (including e-mail). The guarantee is vested exclusively in the Buyer and is not transferable.

2. In the event of a complaint about the Goods by an end customer (i.e. an entity that purchases the Goods solely for its own use and not with the intention of further sale), the Buyer is obliged to immediately inform the Seller of such complaint and of the manner in which the Buyer will handle it. Accepting a complaint of the end customer by the Buyer does not bind the Seller.

3. The Seller shall not be liable for any damage to or defects in the Goods resulting from transport or storage of the Goods contrary to transport instructions or storage instructions referred to in § 2 clause 6 of the GTCS. In addition, the Seller is not liable for any damage to or defects in the Goods resulting from installation of the Goods contrary to the installation instructions referred to in § 2 clause 6 of the GTCS. The Seller shall not be liable for the Goods that have been modified or altered, and with regard to the Goods suitable for modification by trimming - the Seller is not liable for making such modification contrary to the instructions provided on the Seller's website: https://marmite.eu/downloads/ or provided to the Buyer by the Seller in another form (including e-mail). The Seller is not liable for damage to or defects in the Goods caused by or as a result of the Goods not being used for their intended purpose. The Seller shall not be liable for any damage to or defects in the Goods caused by: (a) the use of corrosive, staining or abrasive substances on the Goods, including but not limited to alcohol, inks, lipstick, sanitary cleaners, other aggressive agents containing acids, ammonia, chlorine, and smouldering cigarettes or other objects, or (b) the use of water or any other substance at a temperature higher than (i) 75 degrees Celsius (on the Goods consisting of bathtubs or shower trays) and (ii) 70 degrees Celsius (on the Goods consisting of washbasins) on the Goods, or (c) mechanical damage to the Goods after their release to the Buyer caused by reasons beyond the Seller's control, or (d) storage or assembly of the Goods at ambient temperatures below 0 degrees Celsius or above 75 degrees Celsius.

4. The Seller shall bear contractual and tort liability towards the Buyer only for direct damage in the form of actual losses incurred by the Buyer, however, up to a maximum amount of 100% (one hundred per cent) of the price of each item of the Goods (included in the invoice issued by the Seller) which have not been delivered or have been delivered late through the fault of the Seller, or which have turned out to be defective. The Seller shall not be liable to the Buyer for indirect (consequential) damage as well as for the Buyer's lost profits (lucrum cessans). The above restrictions do not apply if the damage was caused to the Buyer by the Seller intentionally.

5. In the case of accepting a complaint under the guarantee and removal of a defect in the Goods in a manner other than repair of the Goods covered by the complaint, the Seller shall dispose of the Goods complained of at its own cost (in the event that the Goods have been sent to the Seller at the Seller's request) or the Seller shall cover the cost of disposal of the Goods by the Buyer, previously agreed (prior to disposal) between the Buyer and the Seller (in the event that the Goods complained of have not been sent to the Seller). The Seller shall also have the right to request the Buyer to send the Goods covered by the complaint after the Seller has accepted the complaint. In this case, the Seller shall bear the costs of sending the Goods to the Seller's premises.

6. The Parties exclude the statutory warranty for physical defects of Goods.

§6 Payments

1. Under the Agreement, the Buyer shall pay for the Goods indicated in the Order the sale price specified in the Detailed Terms and Conditions valid on the day of placing the Order, and in the absence of Detailed Terms and Conditions - the price specified in the Price List valid on the day of placing the Order, increased by VAT tax at the rate applicable for a particular transaction on the date of issuing the VAT invoice. The Detailed Terms and Conditions as well as the Price List may be unilaterally amended by the Seller and communicated to the Buyer in writing or in document form - an e-mail message. The new Detailed Terms and Conditions as well as the new Price List shall be effective 30 (thirty) days after they are delivered to the Buyer, unless the Parties agree on a different date for the commencement of the new Detailed Terms and Conditions or the Price List (which shall be confirmed by the Parties in writing or in document form - an e-mail message).

2. The Buyer consents to receiving VAT invoices electronically, in *.pdf format, to the e-mail address indicated in the Order or the e-mail address from which the Seller received the Order from the Buyer or to any other e-mail address indicated by the Buyer for the purpose of sending VAT invoices.

3. The Buyer is obliged to pay the Seller the price for the ordered Goods on the basis of an issued VAT invoice, by bank transfer to the bank account indicated in the above-mentioned VAT invoice, within the payment due date agreed in the Detailed Terms and Conditions or indicated in the Price List (in the absence of the Detailed Terms and Conditions), unless the Parties agree on a different, individual payment term (which shall be confirmed by the Parties in writing or in document form - an e-mail message). If the Parties do not agree on the payment due date as specified above, the Buyer is obliged to pay the price within 7 (seven) days of receipt of the Order Confirmation, but no later than before the Goods are released to the Buyer.

4. The Buyer hereby authorizes the Seller to issue VAT invoice without a signature of the Buyer.

5. The Seller shall issue a VAT invoice and submit it to the Buyer on the date of placing the Goods at the Buyer's disposal in accordance with § 3 clause 9 of GTCS or on the date of dispatch of the Goods to the Buyer.

6. The payment day shall be the day of crediting the bank account of the Seller.

7. In the event of a delay in the fulfilment by the Buyer of any due obligations, the Seller is entitled to:

a. suspend the execution of each confirmed Order until the Buyer has paid (together with due statutory interest for delay in commercial transactions and additional costs of debt collection) all mature liabilities, of which the Seller shall promptly notify the Buyer in document form - an e-mail message; the occurrence of the above circumstances shall cause extension of the time limit for the execution of the confirmed Order by the time between the Seller notifying the Buyer of unpaid and mature liabilities and settlement by the Buyer of all mature liabilities; the Seller's suspension of completion of a confirmed Order in the circumstances described in the provision above shall not constitute non-performance or undue performance of the Agreement by the Seller and shall not cause any negative legal and financial consequences for the Seller; and/or

b. after prior request to the Buyer for payment of outstanding obligations within a period of 7 (seven) days and its ineffective expiry, rescind the Agreement regarding the unpaid batch of the Goods or all Agreements concluded and not performed by the Seller for the Buyer until that date; and/or

c. demand the prepayment of the full price for the next ordered batches of the Goods from the Buyer, unless the Buyer provides the Seller with the security for payment for the next batches of Products in a form satisfactory for the Seller.

8. In the situation described in § 6 clause 7 letter b of GTCS, the Seller has the right to sell to third parties the Goods ordered by the Buyer, in relation to which the Seller has rescinded the Agreement, and to demand from the Buyer a contractual penalty in the amount constituting the difference between the sale price of the above-mentioned Goods agreed between the Seller and the Buyer and the sale price of the above-mentioned Goods paid to the Seller by the third party, to which the Buyer consents. If the above-mentioned Goods are produced on the basis of the Buyer's designs or with the Buyer's graphic indications, logo or trademark, then in the situation described in § 6 clause 7 letter b of GTCS, the Seller is obliged to dispose of the above-mentioned Goods, and the Buyer is obliged to pay to the Seller a contractual penalty in the amount of the sum of sale price of the above-mentioned Goods agreed between the Seller and the Buyer and costs of disposal of the above-mentioned Goods, to which the Buyer consents.

§7 Force majeure

1. Neither Party shall be liable in the event of a state of force majeure.

2. Force majeure does not waive the obligation to make the settlements in respect of the Goods delivered to the Buyer.

3. Force majeure shall be understood as an external event, impossible to foresee, the consequences of which cannot be prevented (e.g. state of war, state of emergency, fire, flood, riots, terrorist attacks, strikes, breaking of supply chains, state of epidemic or state of pandemic, other actions of state authorities preventing the performance of the Agreement).

4. The lead time for the Order shall be automatically extended by the duration of force majeure.

5. If the state of force majeure lasts longer than 3 (three) months, each Party has the right to rescind the unperformed Agreement, without any negative legal and financial consequences, of which it will inform the other Party in document form - an e-mail message.

§8 Copyrights and industrial property rights

1. The intellectual property rights and copyrights in the designs of the Goods vest in the Seller, unless otherwise specified in the Agreement or any other written agreement between the Parties.

2. With regard to the Goods to whose designs the Seller has intellectual property rights (e.g. copyright), the Buyer undertakes to the Seller that it will not: (a) manufacture the Goods constituting the subject matter of the Agreement, as well as (b) have the Goods constituting the subject matter of the Agreement manufactured by any third party. The Buyer shall not make any use whatsoever of the designs of the Goods or of the know-how obtained under or in connection with the Agreement. A breach of any of the obligations indicated above entitles the Seller to demand that the Buyer pays a contractual penalty of EUR 100,000 (one hundred thousand euros) for each breach. The reservation of contractual penalty shall not exclude the right to seek the payment of compensation exceeding the value of the reserved contractual penalty.

§10 Dispute resolution

Any disputes which may arise on the grounds of the GTCS or any Agreement, including those related to the execution of the Order and delivery of the Goods by the Seller to the Buyer, shall be resolved amicably between the Parties, and if they cannot be resolved amicably within 15 days - then the Polish common court having jurisdiction over the registered office of the Seller shall be competent to resolve the aforesaid disputes.

§11 Final provisions

1. The GTCS, the Detailed Terms and Conditions, the Agreement concluded on the basis of the GTCS, the Order and any other arrangements of the Parties concerning the sale of the Goods by the Seller to the Buyer shall be governed by the Polish law. The application of the United Nations Convention on Contracts for the International Sale of Goods is excluded. In matters not covered by the Agreement, the Detailed Terms and Conditions and the GTCS, the provisions of the Polish Civil Code shall apply.

2. The invalidity or ineffectiveness of any of the provisions of the GTCS shall not affect the validity or effectiveness of other provisions of the GTCS. In such a case, the relevant provisions of Polish law shall apply instead of the invalid or ineffective provisions of the GTCS.

3. The Buyer is not entitled to assign any rights (including liabilities) under the Agreement or the Order to any third party without a prior written consent of the Seller. It is also not permissible for the Buyer to deduct any receivables to which it is entitled towards the Seller with mutual receivables of the Seller towards the Buyer under the sale of the Goods without the prior written consent of the Seller.
