What's new in our shower enclosures portfolio?

New colours for profiles and fittings in the most popular series:

- **Nes**: Gold, Brushed Copper, Brushed Nickel, Brushed GunMetal
- **Idea**: Brushed Copper, Brushed Nickel, Brushed GunMetal

These new colour options give shower enclosures an even more individual character, perfectly complementing both classic and modern bathroom designs.

New series and models:

New series:

- **Essenza Pro 8** series (models **KDJ**, **PTJ**, **DWJ**, and **Walk-in**) – 8 mm glass and an elegant design with wall brackets ensure maximum stability, aesthetics, and comfort.

New models:

- **Idea 8 QL KDD** – available in Chrome, Black, and Brushed Gold
- **Nes / Nes 8 DWS B** – bifold door + fix glass in line
- **Nes 8 DWS** – with the option to choose door and front wall proportions (few options as standard)
- 2 hybrid shower enclosures – possibility of combining as a standard product **KDD B** with **KDD I** and **KDD B** with **KDD II**.
- **Nes** and **Nes 8 KDD B**, **KDJ B**, **DWB**, **DWS B** will have an **additional bifold handle by default**, not as an option (from August 1, 2025).

What's New in our Shower Trays Portfolio?

- **Doros Stone & Doros Compact Stone**: new colour – **cashmere** – an elegant, subtle shade, perfectly matched to the new shower enclosures palette.
- **Doros PT E** and **Doros Compact PT E**: new dimension – 900×800 mm.

We encourage you to explore our new catalogue and discover the inspiring possibilities our products offer. We create with design, functionality and the highest quality in mind.

Radaway has been operating on the market since 2002. For some twenty years now – thanks to modern production solutions, detailed quality control, qualified staff of specialists and special care for customers satisfaction – we are not only a manufacturer of comfortable and designer shower enclosures, but also an excellent business partner. This is confirmed by numerous awards and – most importantly – long-term, loyal cooperation with many customers in the country and around the world. Our shower enclosures are acclaimed in all European countries, as well as in the Middle East.

Consulting & Technical Support

Our employees make every effort to meet the needs of customers, providing them with support at every stage of purchasing process. Radaway is a concept that covers all pre- and post-sales services, from consulting, through repairs and spare parts services. The technical team consists of about twenty of competent people who are at your disposal in the area of specialist consultations and customer support.

10 years

10 years guarantee of spare parts availability

Many years of experience and investment in machinery allow us to maintain the quality of our shower enclosures at a high level. However, our products are exposed to daily contact with water and cleaning agents, which means that after some time some parts may wear out and require replacement. In such a situation, users can count on us because we guarantee the availability of spare parts for 10 years after the end of production of a given model.

Made to measure
radaway

Fit your shower enclosure to your bathroom

If the interior of your bathroom requires custom solutions, create them with “Radaway Made to Measure”. Adjust the size, shape and glass variant of the shower enclosure perfectly to your needs.

Shower enclosures available in Radaway Made to Measure Programme are marked with this symbol.

With the configurator available on www.konfigurator.radaway.eu you can easily configure a custom shower enclosure. Generated form can be used as a query or an order of custom-made shower enclosure.

You should take precise measurements of the space intended for the shower enclosure.

Instructions on how take measurements can be found at **www.radaway.eu**.

If the shower enclosure will be mounted directly on the floor, please read the tips about product installation on page 20.

Production time of non-standard shower enclosures is about 6 working days + delivery time.

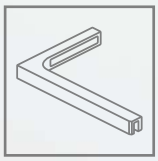

Configurator of non-standard shower enclosures **konfigurator.radaway.eu**

Advice and technical support

We invite you to contact our Non-standard Shower Enclosure Department at every stage of the arrangement process. Thanks to the extensive knowledge on the subject of tailor-made products, instead of perceiving problems, we only see solutions!

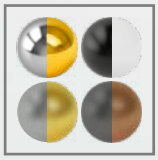

Fit your shower enclosure to your bathroom

STABILIZATION METHODS

Possibility of changing the method of stabilization due to the size of the shower enclosure, the situation in the bathroom, the user's preferences.

PROFILES & FITTINGS COLOURS

Profile colours are available in selected models:
Chrome+, chrome, gold, black, white, brushed nickel, brushed gold, brushed GunMetal, brushed copper.

EXTENTION PROFILES

The easiest and most economical way to match the shower enclosure or shower door to non-standard dimensions is the use of extension profiles.

TOWEL HANGER

Thanks to the railing hanger, you can find a towel within easy reach every time you finish your shower. Furthermore, it makes drying the towels easier.

UNUSUAL SHAPE

It is possible to make a shower enclosure in an unusual shape, e.g. from slants or cut-outs for the seat or bathtub. More ready solutions on our website.

Chrome+

Profiles and support bars can be made in Chrome + technology for an extra-shiny finish.

INDIVIDUAL DIMENSIONS

Shower enclosures marked with this symbol are also made to measure, perfectly matching them to the bathroom arrangement, taking into account its size, specifics and character.

Made to measure

radaway

INTERNAL BRACKETS

Possibility to order internal brackets for a flush to wall solution for models marked with this symbol from Arta, Arta QL and Euphoria series.

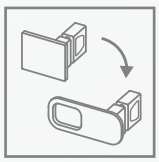

HANDLE FOR BIFOLD DOORS

Possibility to order (if not added by default) an additional handle for shower enclosures, shower doors and bathtub screens with bifold doors.

HANDLE EXCHANGE

Possibility of replacing standard handles with handles with a rounded shape (Nes 8 / Nes, Essenza Pro 8 / Essenza Pro, Essenza 8 / Essenza, Fuenta) and handles with TPE elements (Eos).

DIGITAL COLOURFUL PRINT

Modern technology, for which a specialised digital printer is used, allows you to apply a thermosetting ceramic paint on the glass.

LASER ENGRAVING

Products with this symbol can be manufactured with additionnal laser engraving on glass, selected from several ready-made designs or according to your individual project.

GLASS VARIANTS

You can order a product marked with this symbol with brown, graphite, sateen, Intimato, Mirror, Master-Soft®, Visiosun or in the UltraClear® glass option.

INSTALLATION WITHOUT THRESHOLD STRIP

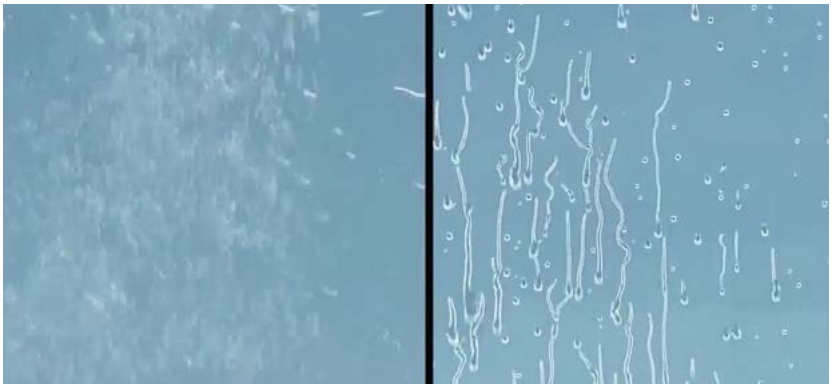

This symbol means that it's up to you to install your shower enclosure with a thin threshold strip or not.

Coating on glass

Everybody knows, how important hygiene in the bathroom is and how difficult and time-consuming it is to keep a bathroom clean. This applies in particular to big glass surfaces.

You must have seen many times water drop traces and damp patches on glass panes of shower cubicles. The reason is that a glass surface that seems to us to be ideally smooth is in fact covered with microscopic pores and grooves that are invisible with the naked eye. For this reason, glass attracts and retains water on its surface. Under the impact of moisture, silicates contained in glass undergo hydrolysis. As a result, a layer of silica gel forms on glass surface. Additionally, glass enters into reactions with salts of iron, manganese, etc. contained in water, as well as with fats and detergents contained in cleaning agents. This leads to the so–called glass corrosion. A corroded and damaged glass surface is very difficult to clean. Moreover, bacteria multiply on such contaminated surface. Almost every user of shower enclosures with unprotected glass surfaces faced the problems with keeping them clean, while the aggressive chemical agents used for cleaning only enhance the corrosion process. Fortunately, the technological progress achieved in recent years in the domain of glass surface protection allows the phenomenon of corrosion to be eliminated.

Simple glass without coating Glass with protective coating

Radaway uses the latest EasyClean® glass protection technology which guarantees effective protection against corrosion and helps keeping shower enclosures, shower doors and bathtub screens clean.

EasyClean®

The **EasyClean®** coating is a protective polymer layer – invisible with the naked eye – deposited on the surface during glass processing. It has water–repellent properties, which is why water drops are not maintained on glass surface, but they run down without leaving precipitates. As the protected glass surface does not enter into direct contact with water, it does not undergo corrosion, while precipitation of any impurities and development of bacteria on such surface proceed at the rates and in quantities that are many times lower than in the case of glass without such a coating.

In the process of depositing the coating, the **EasyClean®** layer unites permanently with silicon contained in glass and becomes a part of glass surface. The coating created in this manner is durable and this makes it different from glass impregnates available on the market, as the latter provide only short–term protection. Unfortunately, under the impact of water and cleaning agents, the effective protection provided by the coating (especially its water–repellent characteristics) gradually decreases. Therefore, it is recommended to apply the **EasyClean® Glass Protector** on to glass surfaces every 6 months, in order to recondition the protective layer.

Glass variants

To meet the expectations of our customers, we decided to give you the opportunity to order shower enclosures in several glass variants. This applies both to standard and custom sizes.

Product marked with this symbol can be ordered in several glass variants. It is possible to order the shower enclosures in the Factory, Frame, Intimato or Gradient variant with transparent, UltraClear®, sateen, graphite, brown or Mirror glass.

** Glass available in models: Modo New/SL, Modo New/SL SW, Nes 8 and Nes (except: KDJ B, KDD B, DWB, PND I), Eos (except: PND I), Idea/Idea 8/8 QL, Espera Pro, Espera, Carena, Torrenta, Twist. Master-Soft® glass is not available in the quadrant models.
*** Frame and Factory available on clear, UltraClear®, sateen, graphite, brown and Mirror glass.

UltraClear® – glass visibly different

UltraClear®

transparent glass

UltraClear® glass has a low content of iron oxides, making it a product with exceptional clarity and transparency. New types of materials used in its production, enhance the ability of light transmission and reduce the greenish tint appropriate for conventional glass. This is particularly evident in the case of glass with a thickness of 6 mm, 8 mm and 10 mm. Instead of the green hue you will receive extraordinary clarity and glass edges in a shade of blue. **UltraClear®** glass is the perfect choice for whoever pays the attention to the natural colours and transparency. Crystal transparency and extremely gloss of **UltraClear®** glass make it the ideal product for those looking for maximum brightness and faithful devotion to original colours. Price of the shower enclosure in particular glass variants depends on the thickness of the glass, the selected variant and the number of parts composing the shower enclosure.

For price and more information please contact the nearest partner store.

Profiles & fittings finishes

Information on the colours available for the various products can be found on the relevant model page.

Chrome

Gold

Black

White

Brushed Nickel

Brushed Gold

Brushed GunMetal

Brushed Copper

Individual elements of the shower enclosure are made of different materials, therefore there may be slight differences in colours.

Chrome+ finish

When it comes to Chrome finish, all small parts (hinges, handles, etc.) are galvanized, and the aluminium profiles – polished anodized, so their colour is called "chrome". However polished anodized, profiles are not so glossy as galvanized small parts. To get the same shiny finish between all parts, in particular series some profiles are galvanized (**Chrome+** finish).

Chrome+ STANDARD

Products within the **Arta QL** and **Arta** series are offered in **Chrome+** technology as a standard feature.

Chrome+ OPTION

For products from series: **Euphoria** and **Euphoria Walk-in** profiles in **Chrome+** technology can be ordered as an additional option (with an extra charge).

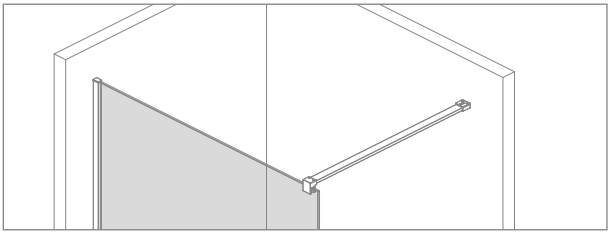

Chrom **Chrome+**

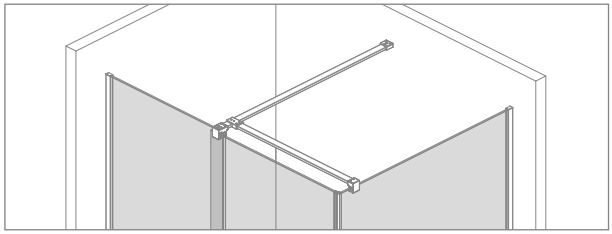

Stabilization methods

Stabilizers are an indispensable element of shower enclosures, shower doors and bathtub screens. Thanks to the use of support bars, it is possible to create durable and stable structures. The type of used stabilizers depends on several factors: the shower enclosure series, the size of the product and the unusual situation in the bathroom. Please contact the Customer Service Department at the ordering stage.

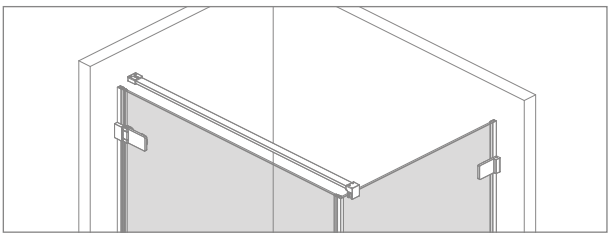

Standard types of stabilization

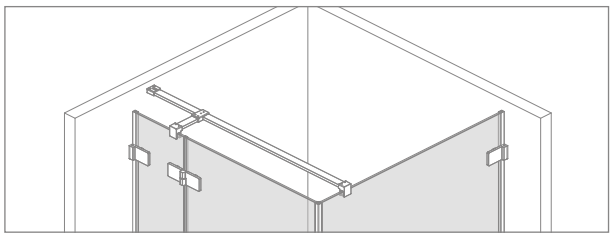

Perpendicular support bar

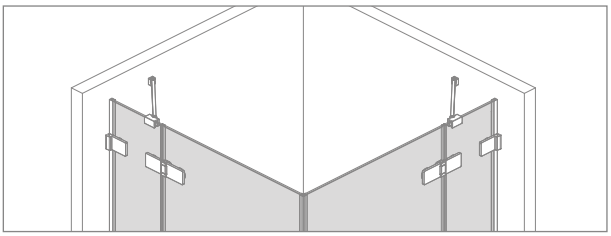

Perpendicular cross stabilizer

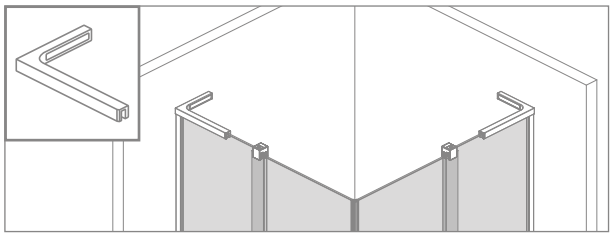

Parallel support bar

Parallel cross stabilizer

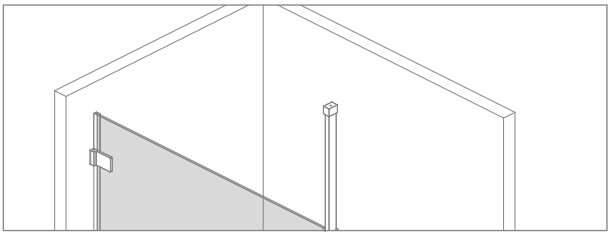

Oblique support bar

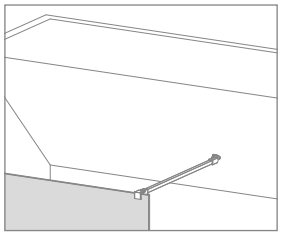

Stabilizer L (SL) is adjustable. It is designed for mounting on glass with a thickness of 6 and 8 mm up to a width of 1200 mm.

Non-standard types of stabilization

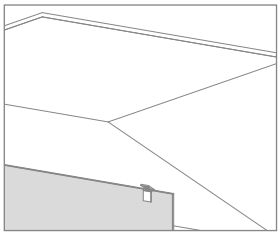

Telescopic support bar

Stabilizing element, mounted to the ceiling, designed for Walk-in shower enclosures. The telescopic support bar is used when it is not possible to use standard stabilizer mounted to the wall, e.g. a shower enclosure under the slant or close to a window.

Stabilizer for slant

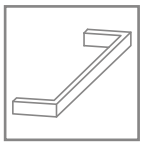

Bracket for slant

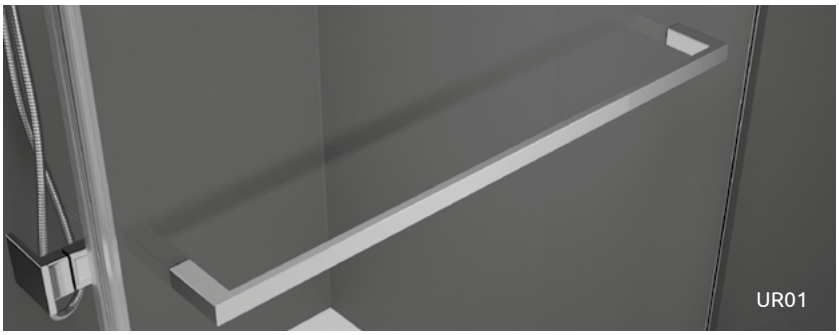

Stabilizing elements, enabling the installation of the shower enclosure at slant. In this case, it is necessary to use a stabilizer with movable fixations – to the glass and to the wall, which can be adjusted in the range of 90 °. The stabilizer for slant is designed for fixing on glass with a thickness of 6 mm and 8 mm, while the bracket for slant is for glass with a thickness of 6 mm, 8 mm and 10 mm.

Towel hangers

Thanks to the railing hanger, you can find a towel within easy reach every time you finish your shower. Furthermore, it makes drying the towels easier.

The hanger is available in three lengths: **420**, **520**, and **650 mm**, and comes in all colours except white. The minimum glass width required for the hanger to be installed is **480 mm**. The hanger **must be ordered simultaneously with the shower enclosure**. It can only be mounted on models marked with the symbol shown nearby. The order form for the hanger can be found on p. 467. If the form is not completed, the hanger will be installed aligned with the handle and **50mm from the edge of the shower enclosure**.

The hanger is available in below colours:

Glossy: **Matte:**

01 Chrome **09** Gold **54** Black

Brushed:

91 Nickel **99** Gold **92** GunMetal **93** Copper

Chrome
Art no. UR01-420-**01**, length: **420** mm
Art no. UR01-520-**01**, length: **520** mm
Art no. UR01-650-**01**, length: **650** mm

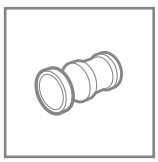

Black
Art no. UR01-420-**54**, length: **420** mm
Art no. UR01-520-**54**, length: **520** mm
Art no. UR01-650-**54**, length: **650** mm

Gold & Brushed
Art no. UR01-420-**XX**, length: **420** mm
Art no. UR01-520-**XX**, length: **520** mm
Art no. UR01-650-**XX**, length: **650** mm

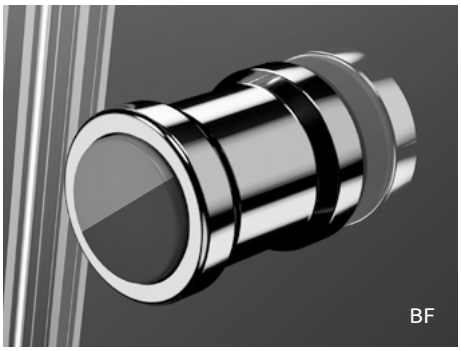

In the article number, the symbol **XX** should be replaced with the digit of the selected colour.

Additional handle for bifold shower doors

Possibility to order an additional handle for shower enclosures , shower doors and bathtub screens with bifold doors.

Fits to shower enclosures with 6 and 8 mm glass. The set includes TPE elements both in black and graphite colour. The handle is mounted at the stage of the production process, therefore, it should be ordered simultaneously with the shower enclosure.

Art no. BF-0**XX**

In the article number, the symbol **XX** should be replaced with the symbol of the selected colour

Glossy: **Matte:** **Brushed:**

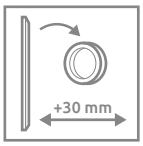

01 Chrome **09** Gold **54** Black **91** Nickel **99** Gold **92** GunMetal **93** Copper

The TPE elements in the additional handle come in different colours depending on the handle finish: For chrome handles, the TPE elements will be either gray or black. For brushed nickel handles, the TPE elements will be gray. For all other colours of handles, the TPE elements will be black.

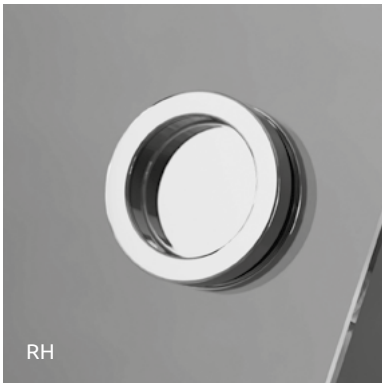

Handles exchange

Option of exhanging the handles in these series is paid and you should clearly state it in the order and give the article number of the handle.

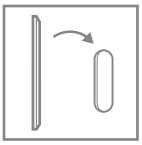

In Furo series products it is possible to extend the entrance by the value given in the pictogram by changing the vertical handle to the round handle*. Please contact the Customer Service Department at the ordering stage.

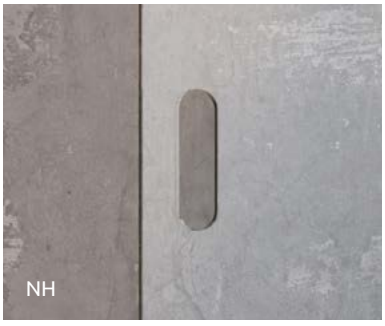

* only chrome and black colour

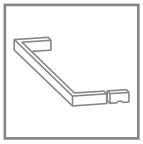

RH

RH

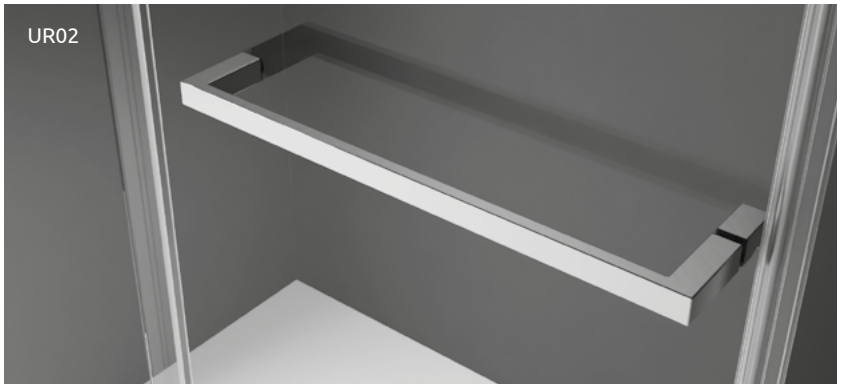

In the Furo series products it is possible to replace the standard handle with a 35×120 mm hole cut in the glass pane. Please contact the Customer Service Department at the ordering stage.

NH

It's possible to have your product manufactured with the **UR02 rail handle** (Furo series), which also functions as a towel hanger. This hanger is available in three lengths: **420 mm**, **520 mm**, and **650 mm**. By default, the longest possible hanger length will be selected. Please contact the Customer Service Department at the ordering stage.

UR02

The hanger is available in below colours:

Glossy:

01 Chrome

09 Gold

Matte:

54 Black

Brushed:

91 Nickel

99 Gold

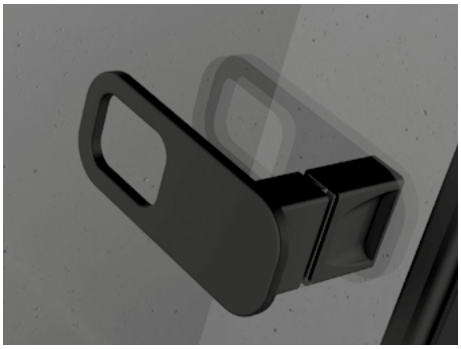

92 GunMetal

93 Copper

In shower enclosures from Nes 8, Nes, Essenza Pro 8, Essenza Pro, Essenza 8, Essenza and Fuenta series, marked with this symbol, we have introduced the option of exchanging the handles.

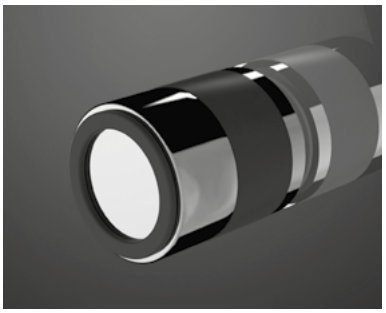

Art no. 004-400002601

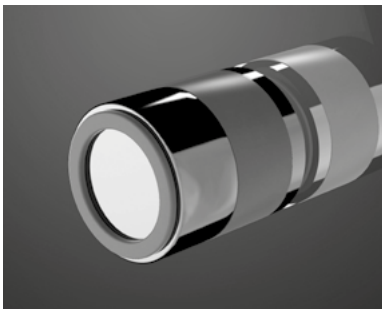

Art no. 004-400002654

For products from Eos series you can replace the standard handles with the handles that contain TPE elements in black or graphite. You can also order fully chromed handles.

Art. No. 004-400001401

Handle with TPE (Thermoplastic elastomer) element in black colour.

Art. No. 004-400001400

Handle with TPE (Thermoplastic elastomer) element in graphite colour.

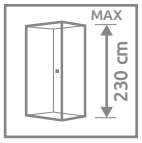

Art. No. 004-400000301

Chrome handle. Does not apply to models KDD B, KDJ B, and DWB.

Handles' colour exchange

For all models of series Arta, Fuenta, Essenza with bifold (B) doors (KDJ B, KDD B, DWB) there is a possibility of paid conversion of the handles with the TPE elements in black to the handles with the TPE elements in graphite. **You should clearly state the conversion in the order and give the article number of the handle.**

Maximum height of the shower enclosure

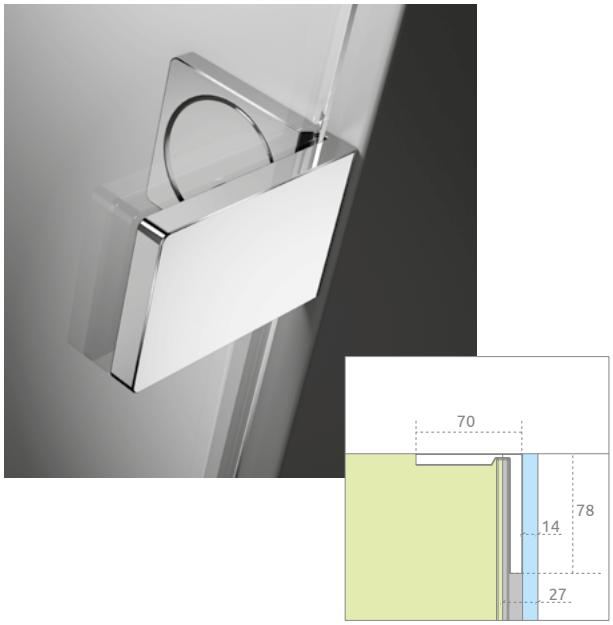

The standard height of the shower enclosures is from 1700 mm to 2016 mm depending on the series. However, there is a possibility to order higher shower enclosure within the „Radaway Made to Measure" programme. The models, which this option applies to, are marked with the symbol shown next. In the picture there is also information to which maximum height particular model can be produced.

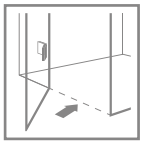

Inside brackets

If it is not possible to attach a standard brackets, you can order a non-standard product with inside brackets. This applies to the Arta and Euphoria series. A cabin with such brackets can only be installed on perfectly straight walls because sealing profiles cannot be used.

Installation without a threshold strip

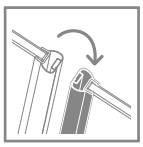

To ensure an easy access to the shower area, we can install a shower enclosure or a shower door without the threshold strip.

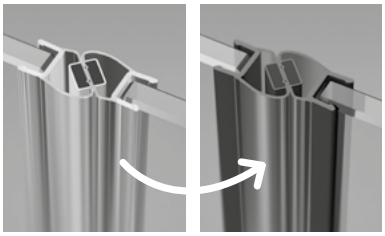

Gaskets' colour exchange

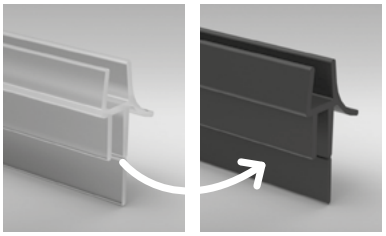

In products marked with this symbol, there is possibility of paid replacement of the transparent gaskets for black ones.

The selected option should be **clearly stated in the order**:

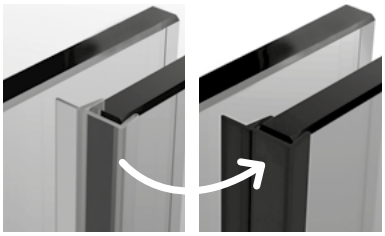

– option no. 1: replacement only of magnetic gaskets,
– option no. 2: replacement of all gaskets (magnetic, vertical and horizontal),
– option no. 3: replacement only of horizontal gaskets.

magnetic gaskets

horizontal gaskets

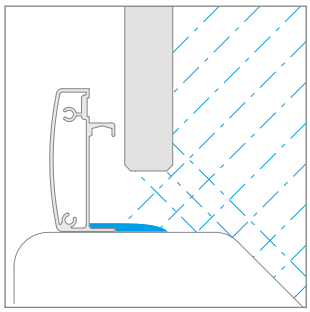

vertical gaskets

Water-tightness of shower enclosures

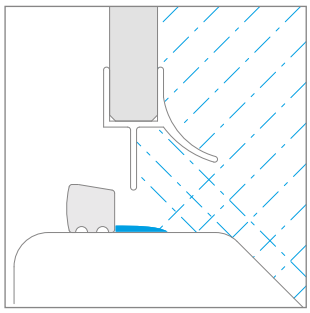

You must remember that the tightness of shower enclosures depends on their design, construction and method of installation. All products manufactured by our company are tight in accordance with EN 14428:2008+A1, which accurately identifies functionnal requirements and test methods. Condition of appropriate tightness of the shower enclosure is the correct installation, consistent with the instructions.

Among the many models of the shower enclosures we can distinguish models with or without bottom treadmill/profile:

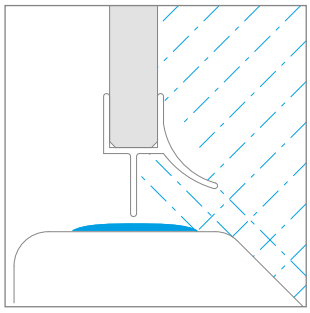

Models with bottom treadmill/profile (construction of the shower enclosure closed in profiles) are characterised by the highest tightness. They have a high threshold and mostly sliding doors, so water droplets can not pass outside the cabin.

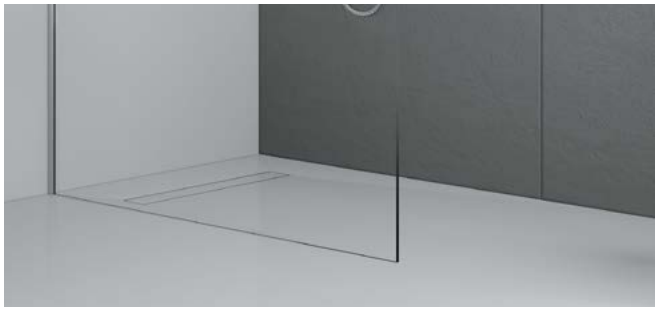

Frameless models mounted with the threshold strip. Low threshold strip gives less protection against splashes of the water drops than a full framed model.

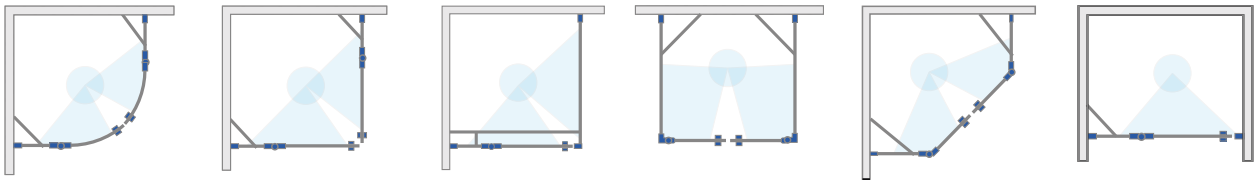

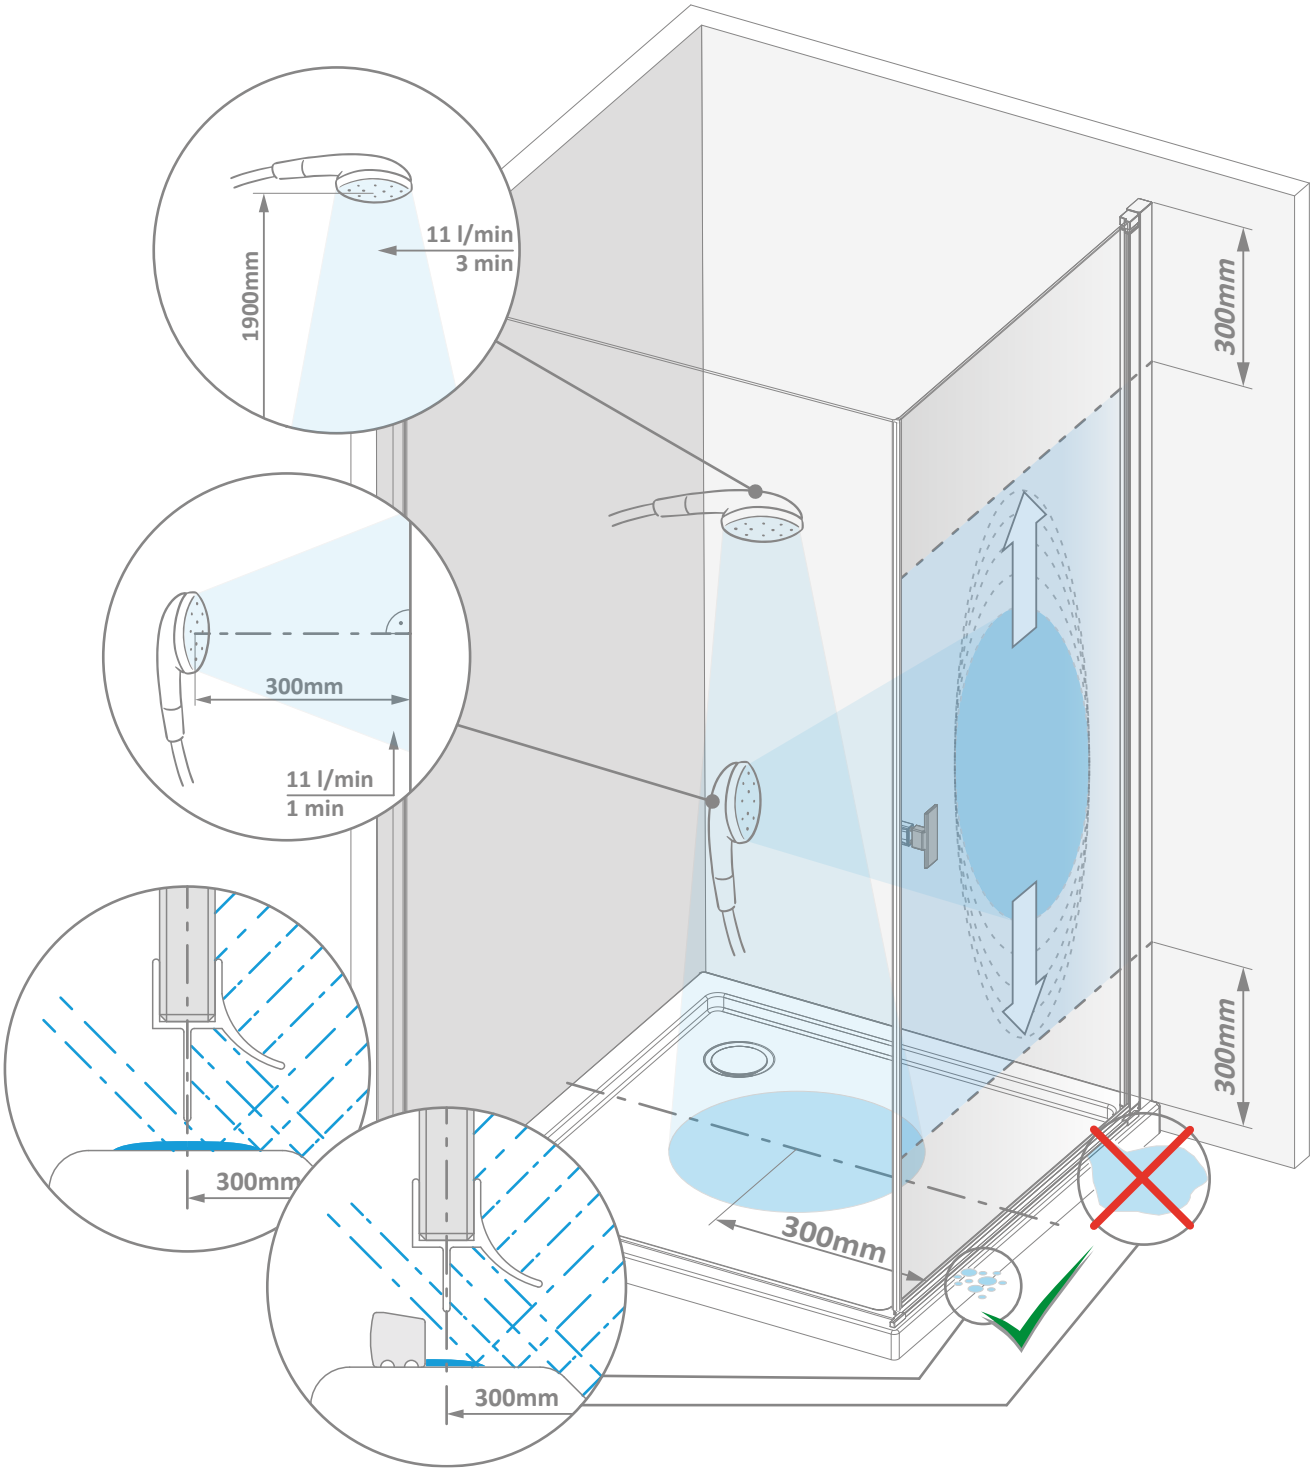

Frameless models mounted without the threshold strip. Lack of the threshold makes the water more easily seep out of the shower area, which reduces its tightness. When installing the shower enclosure directly on the floor, be sure to appropriate level the floor, so that water flows towards the drain and does not pour through the fugues outside the shower enclosure.

Walk-in shower enclosures. Lack of the door reduces the tightness, especially in case of small shower areas.

Shower enclosure tightness testing in accordance with the PN-EN 14428+A1:2008 standard

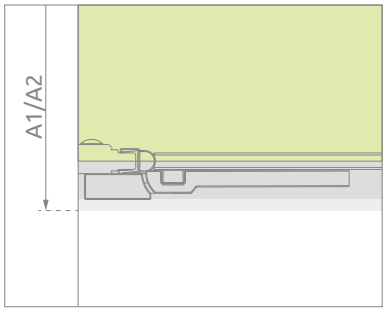

Installation methods

When buying a shower enclosure it is worth remembering that there are different ways to install it, obtaining different aesthetic effects. The shower enclosure can be mounted on the shower tray or directly on the floor – with glass line or edge of the profile along the border of the tiles.

1 Installation on the shower tray – the external dimension of the shower tray (A1 and A2 dimensions)

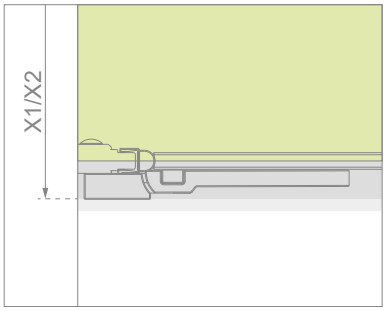

Shower enclosure producers give the dimensions of the shower enclosure as a shower tray dimensions, on which it will be set. In fact, the external dimensions of the cabin are smaller, because the exterior edge of the cubicle's profile is spaced from the edge of the shower tray.

2 Installation without a shower tray – the external dimension of the shower enclosure on the edge of the tile/fugue (dimensions X1 and X2)

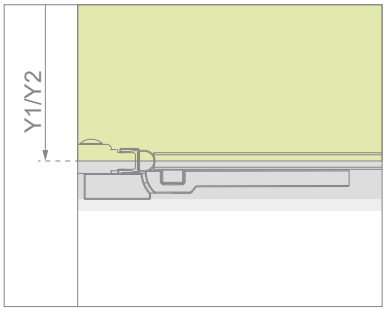

Dimensions X1 and X2 are the external dimensions of the cabin (counting from the wall to the outer contour of the profile or buckle). If you want the outer edge of the cubicle's profile to be mounted on the edge of the tile/fugue, please read the dimensions X1 and X2 from the tables placed near the technical drawing of each model in further part of the catalogue.

3 Installation without a shower tray – glass line on the edge of the tile/fugue (dimensions Y1 and Y2)

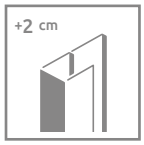

If you want the glass lines to be installed on the connection of the tiles (run along tiles grout) without the necessity of ordering a custom shower enclosure, please read the dimensions Y1 and Y2 from the tables placed near the technical drawing of each model in further part of the catalogue.

Extension profiles

The easiest and most economical way to match the shower enclosure or shower door to non-standard dimensions is the use of extension profiles.

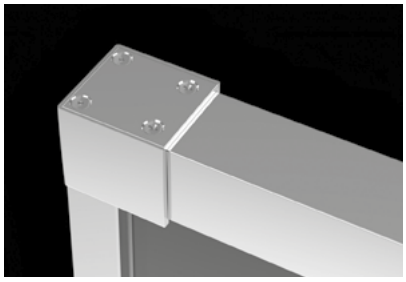

Depending on the model we have profiles which increase the nominal size of 1 cm, 2 cm and 4 cm. Information about profiles can be found on the page of particular model of the shower enclosure and is marked with special symbols.

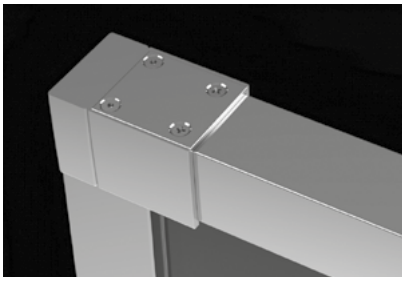

If the profiles do not allow obtaining the desired size of the shower enclosure or shower door, you can use the „Radaway Made to Measure" programme. Extension profiles are not available in Chrome+ technology Extension profiles cannot be combined with each other (does not apply to Essenza 8, Essenza, Fuenta, Nes 8, Nes, Premium Pro and Alienta series).

Chrome profiles in each series of products.

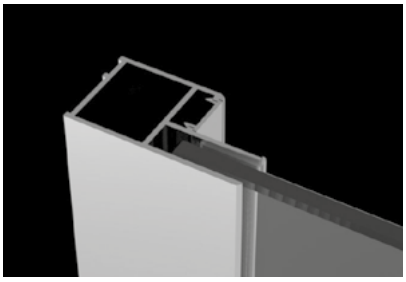

For other colour finishes, please get in touch with the customer service or your local partner

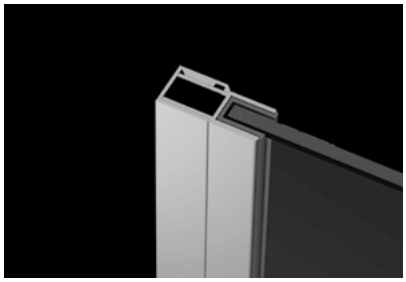

Idea – standard profile.

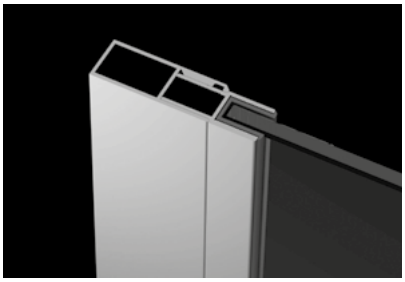

Idea – profile + 2 cm.

Vesta – profile +4 cm. You should replace standard U profile with the extension profile P01-121150001.

Print radaway

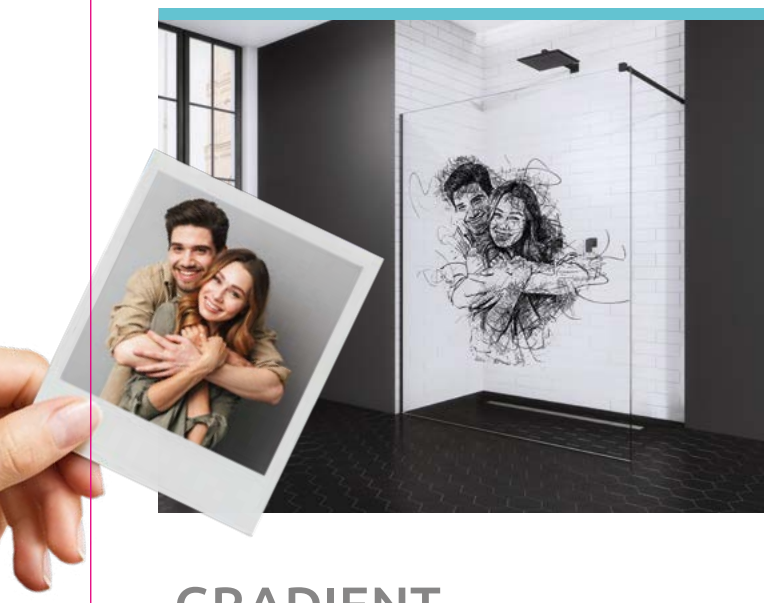

Print Radaway is available in several glass variants: transparent, UltraClear®, sateen, brown, graphite and Mirror glass.

Digital colourful print on glass

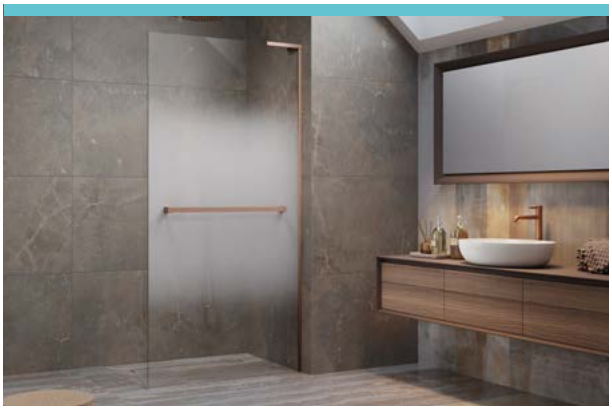

Print Radaway is the brand's service that allows you to make an original print on the glass of the shower enclosures, shower doors and bathtub screens.

Modern technology, for which a specialised digital printer is used, allows you to apply a thermosetting ceramic paint on the glass. The applied pattern is combined with glass during the toughening process, which guarantees extraordinary durability – the motif will not wear off and will remain intense despite the passage of years. The print is made on the outside of the cabin, which makes it easier to keep it clean (the protective EasyClean® coating is located on the inside of the shower enclosure).

"SKETCH" EFFEKT

GRADIENT

In the case of printing a pattern sent by the client, we send its proposed layout on glass panes.

TECHNICAL REQUIREMENTS OF THE „SKETCH" EFFECT:
High resolution of the photos (the **longer side** of the photo should be **4000 px**), the fewer elements in the photo, the better the final effect, the object that is the target of the effect should be clear (strongly distinguished from the background). The quality of the print depends on the sharpness of the photo provided.

COLOUR PRINTING TECHNICAL REQUIREMENTS:
We recommend uploading **vector files** that can be scaled to any dimension without loss of quality. However, for raster graphics/photos, we suggest that they have a pixel density of not less than 40 ppc, i.e. **4000 pixels are required for every 100 cm of print**. We recommend that the submitted raster graphics be free of JPEG lossy compression artifacts (especially visible on photos from mobile devices). It should be noted that the glass printing technology used as well as the fixing process, which uses very high temperatures (during tempering the glass), causes the tonal range of colours to be smaller than that of digital displays and standard printouts on paper.

*ppc – pixel per centimeter

Example: 1.4 m × 2 m = 5600 × 8000 px

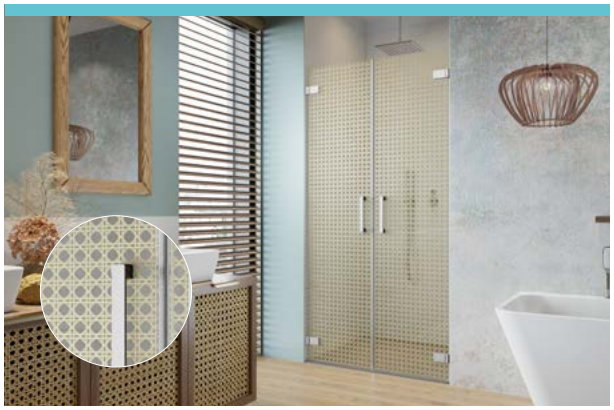

Check if your photo meets the technical requirements on the website:
www.tester.radaway.eu

Glass engraving

Glass, as a mean of artistic expression, has fascinated artists for many centuries. Just to mention the island of Murano – the tradition of hand-blown Venetian glass started there in the thirteenth century and is doing well also in the twenty-first century. Glass sculptures, dishes, flowers, chandeliers, stained glass, glass balls, and even parts of musical instruments (e.g. harp or verrophone) produced all over the world – both for artistic and commercial purposes – carry on an unique feature of individualism.

Working on such an inspiring material as glass, we decided to encourage you to create a stylish decoration of the shower enclosure, which will highlight the unique arrangement of your bathroom. The innovative technology of laser engraving allows applying unique patterns, decorative fonts, and even photos on a glass.

Laser engraving is a durable application of motifs on the glass. Engraved pattern is always on the outer side of the shower enclosure, so that the glass does not lose the properties of tempered safety glass and is easy to keep clean – protective coatings are always from the inside of the cabin. We offer you the laser engraving on clear glass, Ultra Clear, Mirror, brown and graphite.

On the products marked with this symbol it is possible to perform the laser engraving.

engraving
radaway

When choosing a pattern presented in the catalogue, please pay attention to the size and layout of the glass panes. In the case of custom pattern sent by the client, we deliver you a proposal of pattern arrangement on the glass panes.

Familiarise yourself with our pattern proposals or upload your own theme. Precise beam of laser light will transfer it on the glass surface of your chosen shower enclosure or shower door.

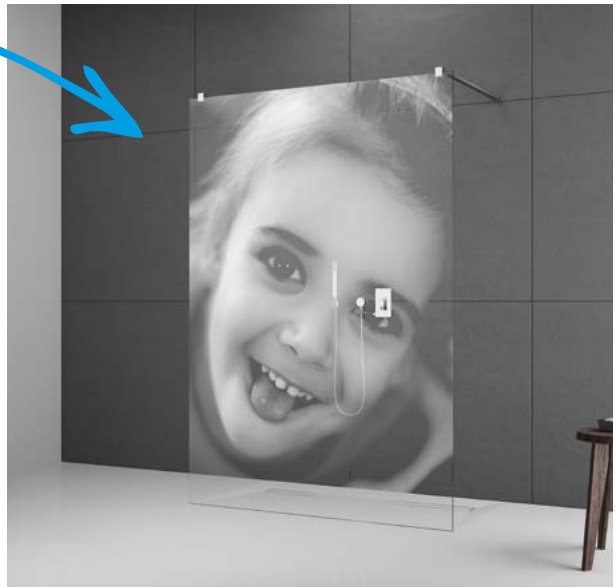

Check if your photo meets the technical requirements on the website:
www.tester.radaway.eu

TECHNICAL REQUIREMENTS:

A photograph of at least 1500 px on every meter of engraving, e.g. engraving in the format of 1.4 m × 2 m = 2100 × 3000 px

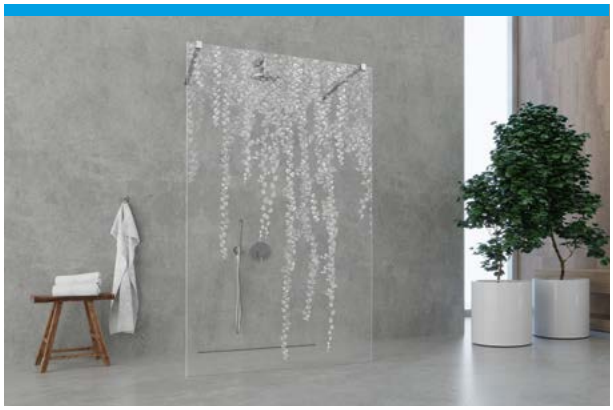

The quality of engraving depends on the sharpness of the supplied image.

TOPOGRAPHY

Gallery of engraved patterns are available on the website: **radaway.eu/na-miare/grawer**

Please remember to specify the side and the location of the engraving on the shower enclosure each time. The layout of the pattern may change depending on the size of the glass. Engraved patterns look best on a dark background

Glass constructions

The main element of the shower enclosure is glass – a material that has been in the center of our attention for over 20 years. Based on these experiences, we have created not only many shower enclosures, shower doors or bathtub screens, but also glazing and partitions that perform other functions in interior design. Glass partitions are made as part of the „Made to Measure" programme, we can decorate them with a print or engraving. Below are some examples of solutions produced by our company. Please contact the Customer Service Department, our constructors will adjust the solution to the given arrangement situation.

Room doors – Nes 8 / Nes Black DWD II

Storage for the washing machine – Eos DWJ I

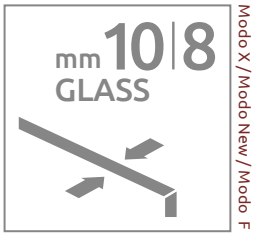

The glass partition – Modo Black XL Frame with the engraving Letters

The glass partition

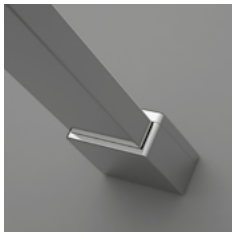

MODO X / NEW / F / SL / F SL

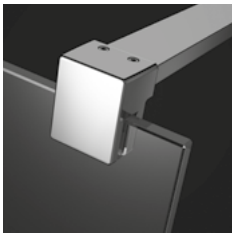

Tempered safety glass, thickness: 10 mm or 8 mm, compliant with PN:EN 12150:1

An adjustment mechanism which allows to compensate for wall irregularities up to 10 mm

Solid support bars ensure stable construction of shower enclosure

Tempered safety glass

Easy® Clean

Glass protected with EasyClean® coating

FEATURES OF THE SERIES

Arta p. 78
Euphoria p. 90
Furo p. 98
Espera Pro p. 114
Essenza Pro p. 162
Nes p. 228
Eos p. 284

Solid support of Modo F

Stabilizer of Modo F SL

STANDARD GLASS FINISH

01 Transparent

56, 58 Frame/transparent
55, 57 Factory/transparent

The pattern is made of durable ceramic paint, applied from the outside, which fuses with the glass during the toughening process.

CEILING TELESCOPIC SUPPORT BAR

Possibility of mounting to the ceiling using a telescopic ceiling support bar. Please note that the use of a support bar increases the dimensions of the shower enclosure. Details on p. 72

ADDITIONAL OPTIONS

POSSIBILITY OF USING TELESCOPIC SUPPORT BAR

Shower enclosures come in standard with stabilizer mounted to the wall. If the situation in the bathroom does not allow you mount such a stabilizer, there is possibility to buy a telescopic support bar mounted to the ceiling. Details on p. 72

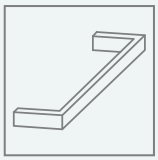

MADE TO MEASURE

Products marked with this pictogram are available in our "made to measure" programme eg. with non-standard dimensions, with slants, cutouts for the seat or bath. Details on p. 7 or on our website www.radaway.eu

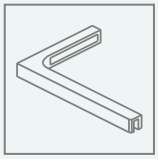

GLASS VARIANTS

Product is available in several glass variants. Details on p. 11.

TOWEL HANGER

Possibility to order a rail hanger, ideal for hanging a towel. Details on p. 14.

STABILIZER L (SL)

Possibility of replacing the stabilization method with stabilizer L (SL) for a fee. The stabilizer should be ordered together with the shower enclosure – please contact the Customer Service Department. Details on p. 13.

Walk-in 160	1590-1600	max 1200	853-863	2000

If the total width of the front (X) ≤ 1400, there is a paid option to change the perpendicular support bar to the corner one. This option should be clearly stated in the order.

There is a possibility of a paid replacement of transparent gaskets (vertical and horizontal) for black gaskets. This option should be clearly stated in the order.

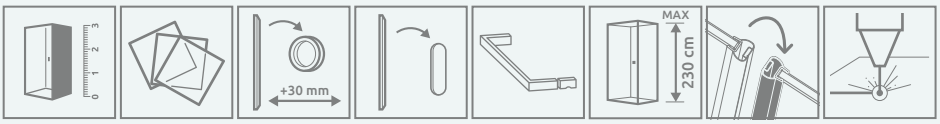

It is possible to make the product with a railing handle which also functions as a towel hanger.

It is possibile to extend the entrance by 30 mm by replacing the vertical handle with a round one [1]. Please contact the customer service department.

ADDITIONAL OPTIONS

RECOMMENDED SHOWER TRAYS

Dimensions are given in mm.

Telescopic support bar

Modo New and Euphoria Walk-in shower enclosure have a stabilizer mounted to the wall as standard. If the situation in the bathroom does not allow to mount such a stabilizer, it is possible to buy a telescopic stabilizer mounted to the ceiling.

When planning the installation of Modo New cabins with a telescopic stabilizer, we have to order a shower enclosure with non-standard dimensions, because the telescopic stabilizer increases the cabin's dimensions by 24 mm. Installation of cabins with a telescopic stabilizer is possible if the edge of the shower tray on which the stabilizer stands is at least 45 mm wide.

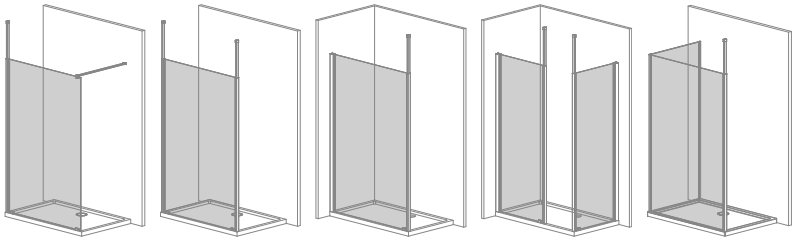

Installation of Euphoria Walk-in cabins with a telescopic stabilizer is possible if the edge of the shower tray on which the stabilizer stands is at least 45 mm wide. The only exception is the Euphoria Walk-in III model, which we do not recommend installing on a shower tray. When planning the installation directly on the floor, remember that the telescopic ceiling bracket increases the overall dimensions of the cabin by 24 mm.

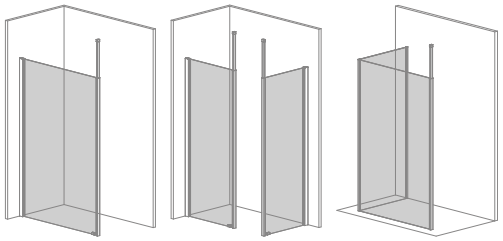

Telescopic support bar	For glass	Height	Colour	Art. No.
	8 mm	max 3000		WD-008-02
				WD-008-02-54

Installation of the walk-in shower enclosure Modo New

With telescopic support bar on the shower tray

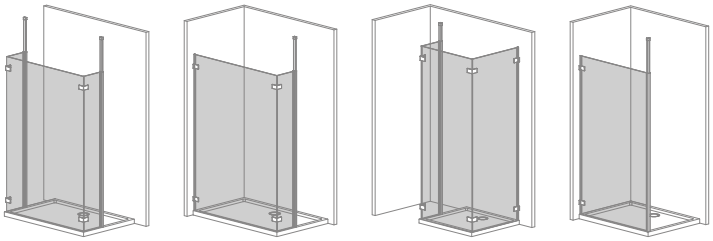

With telescopic support bar directly on the floor (without shower tray)

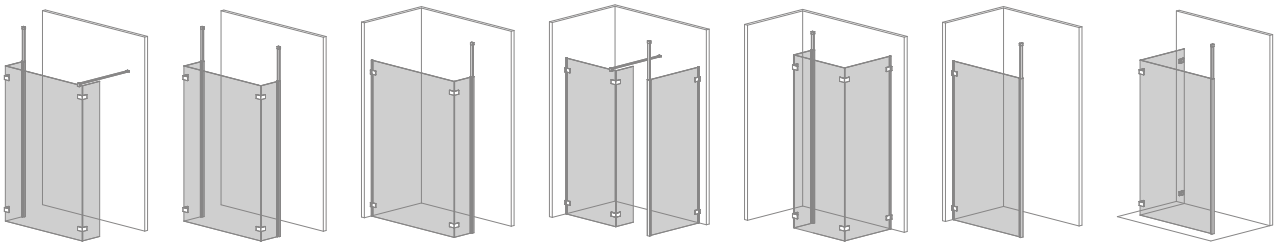

In the case of mounting the shower enclosure on the shower tray you must order the product with non-standard dimensions.

ARTA / ARTA QL

Tempered safety glass, thickness: 8 mm, compliant with PN:EN 12150:1

Hinges with up and down mechanism

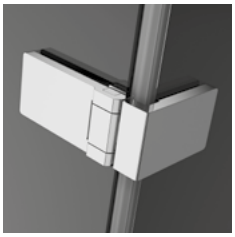

Adjustable wall hinges up to 6 mm

The shower enclosure can be assembled without the sealing profile only when the wall is even and exactly vertical

Glass protected with **EasyClean®** coating

Corner hinge flush-fitted with the glass pane for easy cleaning

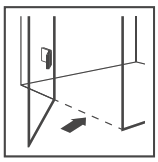

Flush-fitting hinges make the glass surface smooth from the inside – the cleaning of your shower enclosure is very simple (assembly without profile – Arta QL)

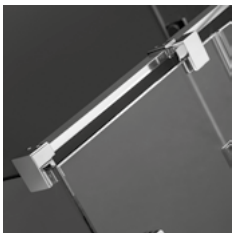

The wall-adjacent sealing profile can fill in the wall irregularities up to about 10 mm (does not apply to QL series models)

POSSIBILITY OF MOUNTING WITHOUT A THRESHOLD STRIP

More details in the assembly instructions.

Solid support bars ensure stable construction of shower enclosure

For the Arta QL series models, the installation method using swing hinges and brackets without any sealing profiles requires a perfect fit to the walls in the bathroom, which is why all models in this series are offered only in our “Made to Measure” programme.

STANDARD GLASS FINISH

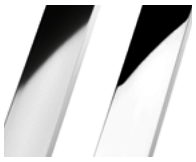

01 Transparent

PROFILE FINISH

03 Chrome+

Chrome **Chrome+**

Chrome+

Vertical profiles and support bars are made in **Chrome+** technology, which ensures higher gloss.

ADDITIONAL OPTIONS

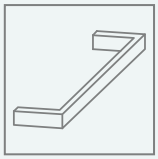

GLASS VARIANTS

Product is available in several glass variants. Details on p. 11.

POSSIBILITY OF USING INSIDE BRACKETS

Details on p. 17.

TOWEL HANGER

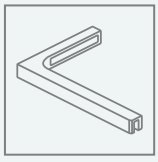

Possibility to order a rail hanger, ideal for hanging a towel.
Details on p. 14.

MADE TO MEASURE

Products marked with this pictogram are available in our “made to measure” programme eg. with non-standard dimensions, with slants, cutouts for the seat or bath. More information on p. 7 or on our website www.radaway.eu

The **Arta QL** series is available only in “Made to Measure” programme.

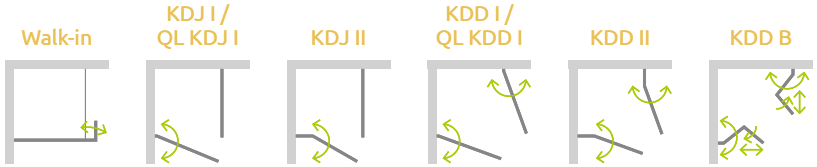

STABILIZER L (SL)

Possibility of replacing the stabilization method with stabilizer L (SL) for a fee. The stabilizer should be ordered together with the shower enclosure – please contact the Non-standard Shower Enclosure Department. Details on p. 13.

EUPHORIA

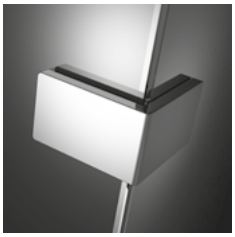

Tempered safety glass, thickness: 8 mm, compliant with PN:EN 12150:1

Flush-fitting hinges make the glass surface smooth from the inside - the cleaning of your shower enclosure is very simple

Solid support bars ensure stable construction of shower enclosure

Elegant chrome details

Glass protected with EasyClean® coating

Gaskets ensuring leak proof performance

The wall-adjacent sealing profile can fill in the wall irregularities up to about 10 mm

The shower enclosure can be assembled without the sealing profile only when the wall is even and exactly vertical

STANDARD GLASS FINISH

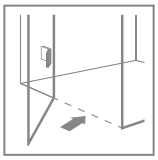

01 Transparent

PROFILE FINISH

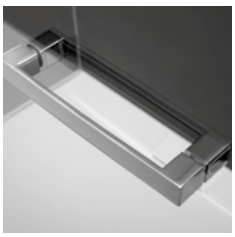

01 Chrome

POSSIBILITY OF MOUNTING WITHOUT A THRESHOLD STRIP*

More details in the assembly instructions.

Elegant chrome details

Tempered safety glass 8 mm

ADDITIONAL OPTIONS

GLASS VARIANTS

Product is available in several glass variants. Details on p. 11.

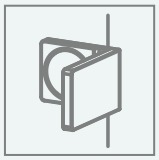

PROFILE **CHROME+**

Possibility to order vertical profiles and support bars in **Chrome+** technology, which ensures higher gloss.

MADE TO MEASURE

Products marked with this pictogram are available in our "made to measure" programme eg. with non-standard dimensions, with slants, cutouts for the seat or bath. More information on p. 7 or on our website www.radaway.eu

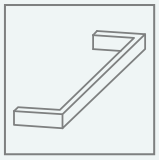

POSSIBILITY OF USING INSIDE BRACKETS

Details on p. 17.

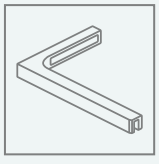

Chrome **Chrome+**

TOWEL HANGER

Possibility to order a rail hanger, ideal for hanging a towel.
Details on p. 14.

STABILIZER L (SL)

Possibility of replacing the stabilization method with stabilizer L (SL) for a fee. The stabilizer should be ordered together with the shower enclosure – please contact the Customer Service Department.
Details on p. 13.

There is a possibility of a paid replacement of transparent gaskets for black gaskets:
– option no.1 – only magnetic gaskets,
– option no. 2 – all gaskets (magnetic, vertical and horizontal).
The selected option must be clearly stated in the order.

It is possible to make the product with a railing handle which also functions as a towel hanger.

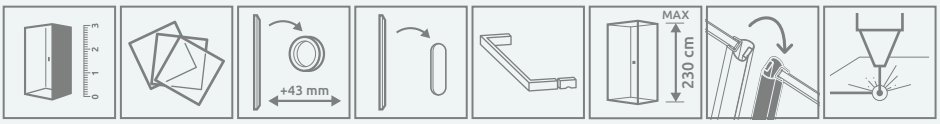

It is possibile to extend the entrance by 43 mm by replacing the vertical handle with a round one [1]. Please contact the Department of Non-standard Shower Enclosures

Possibility of replacing the standard handle with a 35×120 mm hole cut in the glass pane.

TECHNICAL DRAWINGS

There is a possibility of a paid replacement of transparent gaskets for black gaskets:

– option no.1 – only magnetic gaskets,

– option no. 2 – all gaskets (magnetic, vertical and horizontal).

The selected option must be clearly stated in the order.

Idea 8 QL KDJ

Shower enclosure set consists of 3 parts: front (two elements) and sidewall S1. Please specify all the article numbers when making an order. In the article number, the symbol **XX** should be replaced with the symbol of the selected colour.
Due to the lack of profiles enabling adjustment of the shower enclosure, this model is available in two variants:
– **in the standard variant**, in which the external dimensions of the product are adapted to installation on a shower tray (external dimension of the shower enclosure is smaller than the size of the shower tray),
– **in the XL variant**, intended for installation directly on the floor, when the shower installation zone corresponds to standard dimensions of the shower tray.

Shower enclosure set consists of 2 parts: left and right. Please specify both article numbers when making an order.
In the article number, the symbol **XX** should be replaced with the symbol of the selected colour.
Due to the lack of profiles enabling adjustment of the shower enclosure, this model is available in two variants:
– **in the standard variant**, in which the external dimensions of the product are adapted to installation on a shower tray (external dimension of the shower enclosure is smaller than the size of the shower tray),
– **in the XL variant**, intended for installation directly on the floor, when the shower installation zone corresponds to standard dimensions of the shower tray.

ESSENZA PRO 8 / ESSENZA PRO

Tempered safety glass, thickness 8 mm or 6 mm, compliant with PN:EN 12150:1

Hinges with up and down mechanism to prevent damage of the horizontal gasket

Flush-fitting hinges make the glass surface from the inside smooth – the cleaning of your shower enclosure is very simple

Elegant chrome details

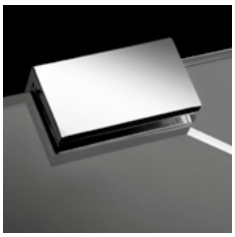

Glass protected with EasyClean® coating

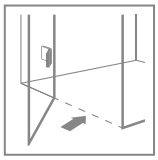

The wall-adjacent sealing profile can fill in the wall irregularities up to about 8 mm

The shower enclosure can be assembled without the sealing profile only when the wall is even and exactly vertical

Elegant chrome details

POSSIBILITY OF MOUNTING WITHOUT A THRESHOLD STRIP

More details in the assembly instructions.

Anodized profiles characterized by higher resistance to corrosion and abrasion.

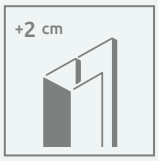

Photos of products in colour variants can be found on p. 212.

ADDITIONAL OPTIONS

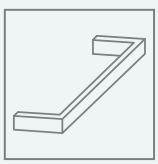

GLASS VARIANTS

Product is available in several glass variants. Details on p. 11.

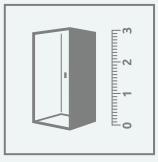

EXTENSION PROFILES

If you can not find suitable shower enclosure or shower door for your bathroom, then you can use extension profiles. Information about the profiles can be found on the page of particular model of the cabin.

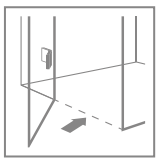

TOWEL HANGER

Possibility to order a rail hanger, ideal for hanging a towel. Details on p. 14.

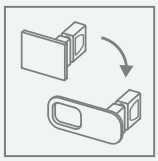

MADE TO MEASURE

Products marked with this pictogram are available in our "made to measure" programme eg. with non-standard dimensions, with slants, cutouts for the seat or bath. Details on p. 7 or on our website www.radaway.eu

POSSIBILITY OF MOUNTING WITHOUT A THRESHOLD STRIP

More details in the assembly instructions.

POSSIBILITY OF PAID CONVERSION OF THE HANDLES

Please note it clearly in the order and specify the article number of appropriate handle. Details on p. 16.

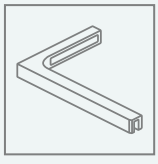

Nr art. 004-400002601

Nr art. 004-400002654

does not apply to the KDJ-B, KDD-B and DWB model.

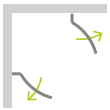

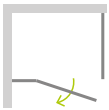

STABILIZER L (SL)

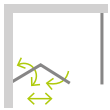

Possibility of replacing the stabilization method with stabilizer L (SL) for a fee. The stabilizer should be ordered together with the shower enclosure – please contact the Customer Service Department. Details on p. 13.

Dimensions are given in mm.

PREMIUM PRO

Tempered safety glass, thickness: 6 mm, compliant with PN:EN 12150:1

Top masking cap for wall-adjacent profiles

Bottom roller flush with the glass pane, facilitating cleaning

Bearing rollers with a chrome cap

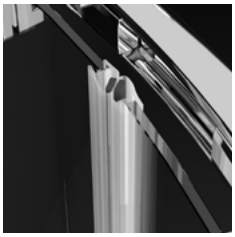

Glass protected with EasyClean® coating

Roller stop for safety while sliding the door.

Possibility to unlock and tilt the door to clean the shower enclosure

Gaskets ensuring leak proof performance

Ergonomic handle

PROFILE FINISH

Glossy: **Matte:**

01 Chrome **54** Black

Anodized profiles characterized by higher resistance to corrosion and abrasion.

In products with black profiles, black gaskets are in standard.

Photos of products in colour variants can be found on p. 354.

STANDARD GLASS FINISH

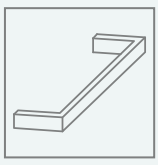

01 Transparent

ADDITIONAL OPTIONS

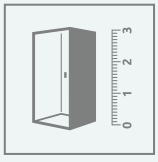

GLASS VARIANTS

Product is available in several glass variants. Details on p. 11.

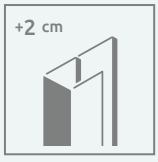

TOWEL HANGER

Possibility to order a rail hanger, ideal for hanging a towel. Details on p. 14.

MADE TO MEASURE

Products marked with this pictogram are available in our "made to measure" programme eg. with non-standard dimensions, with slants, cutouts for the seat or bath. Details on p. 7 or on our website www.radaway.eu

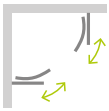

EXTENSION PROFILES

If you can not find suitable shower enclosure or shower door for your bathroom, then you can use extension profiles. Information about the profiles can be found on the page of particular model of the cabin.

ADDITIONAL OPTIONS

MADE TO MEASURE

Products marked with this pictogram are available in our "made to measure" programme eg. with non-standard dimensions, with slants, cutouts for the seat or bath. Details on p. 7 or on www.radaway.eu

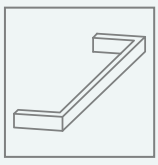

GLASS VARIANTS

Product is available in several glass variants. Details on p. 11.

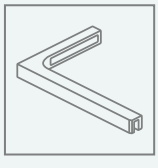

EXTENSION PROFILES

If you can not find suitable shower enclosure or shower door for your bathroom, then you can use extension profiles. Information about the profiles can be found on the page of particular model of the cabin.

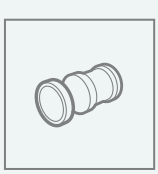

TOWEL HANGER

Possibility to order a rail hanger, ideal for hanging a towel. Details on p. 14.

STABILIZER L (SL)

Possibility of replacing the stabilization method with stabilizer L (SL) for a fee. The stabilizer should be ordered together with the shower enclosure – please contact the Customer Service Department. Details on p. 13.

BIFOLD HANDLE

Additional handle for bifold shower enclosures, shower doors and bathtub screens. Details on p. 14.

How to specify the variant (left or right) of a shower tray or an asymmetrical shower enclosure.

Measuring the shower tray radius

Shower enclosure is one of the most important elements of bathroom equipment. When we choose the cabin, we have to choose the suitable shower tray. The perfect match is guaranteed by the purchase of a shower tray and shower enclosure from one manufacturer. However, if you already have a shower tray and would like to choose a suitable shower enclosure from the Radaway offer, then in the case of shower doors and rectangular shower enclosures, it is enough to measure the length of the shower tray's sides and compare with the dimensions of the door or cabin, while in the case of quadrant shower enclosures the matter is a little bit more complicated, as we have to know the radius of the cabin and shower tray. Quadrant Radaway cabins are suitable for installation on shower trays with a radius of 550 mm. You can determine the shower tray radius using the following formula below:

A1 – B1 = r = A2 – B2

Measuring the straight section (B1 or B2) we get a result that should be subtracted from the size of the shower tray (A1 or A2) to obtain its radius (r).

Shower trays

Shower trays advantages

Liquid marble shower tray

- 2 models possible to cut: Teos, Kyntos
- smooth surface (Giaros) for easy cleaning, or anti-slip surface (Zantos, Teos, Kyntos)
- antibacterial surface
- resistance to moisture and fungi
- designed with attention to details and aesthetics
- extremely glossy surface
- material suitable for renovation
- exclusive and elegant design
- can be installed flush-to-floor

TECHNOLOGICAL CROSS SECTION

Acrylic shower trays with polyurethane base

- antibacterial smooth area for easy cleaning
- resistance to moisture and fungi
- designed with attention to details and aesthetics
- extremely glossy surface
- high-density PU filling with special steel reinforcement provide high compressive strength
- easy, quick and clean installation (it is enough to level the tray and glue it with tile adhesive)
- low overall height allows an easy, non-threshold access to the bathing area
- an integrated base
- excellent thermal insulation providing effect of pleasantly warm surface

TECHNOLOGICAL CROSS SECTION

Liquid marble shower trays

Acrylic shower trays on a polystyrene base

Dimensions are given in mm.

Acrylic shower trays

- antibacterial smooth area for easy cleaning
- resistance to moisture and fungi
- designed with attention to details and aesthetics
- extremely glossy surface
- easy access to siphon in case of shower trays with removable panel
- quick installation, easy adjustment
- wide range of shapes and sizes

TECHNOLOGICAL CROSS SECTION

Acrylic shower trays on a polystyrene base

- antibacterial smooth area for easy cleaning
- resistance to moisture and fungi
- designed with attention to details and aesthetics
- extremely glossy surface
- EPS filling with special steel reinforcement provide high compressive strength
- easy, quick and clean installation (it is enough to level the tray and glue it with tile adhesive)
- excellent thermal insulation providing effect of pleasantly warm surface

TECHNOLOGICAL CROSS SECTION

Flat shower trays with poliuretan base Acrylic shower trays

Dimensions are given in mm.

Shower trays Made to Measure

Shower trays from Teos and Kyntos series are made of marble conglomerate, material characterized by excellent functional properties and aesthetic values. This material is resistant to various types of dirt, depigmentation and abrasion.

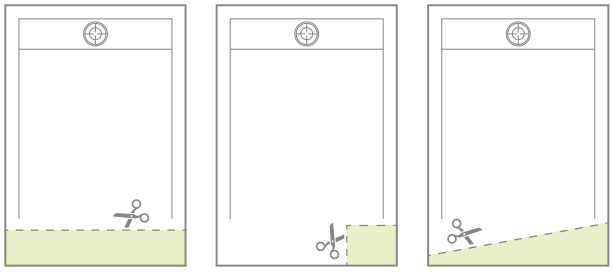

STONE's structural surface has non-slip properties which ensures safety during the usage. The design of the shower trays guarantees their easy installation directly on the floor or enables flushing the shower tray with the floor level.

Shower trays are available in some colours: White, Cemento, Anthracite and Black. Depending on the model with:
– drain line with a cover in a shower tray's colour,
– compact drain with a cover in a shower tray's colour or stainless steel.

It is possible to cut the shower tray into non-standard sizes and shapes. The customer can do it individually or order a cutting service in our company.

Below we present examples of possibilities for cutting the shower trays. When ordering a shower tray, please fill out the form (radaway.eu) by giving the exact dimensions and location of the cut.

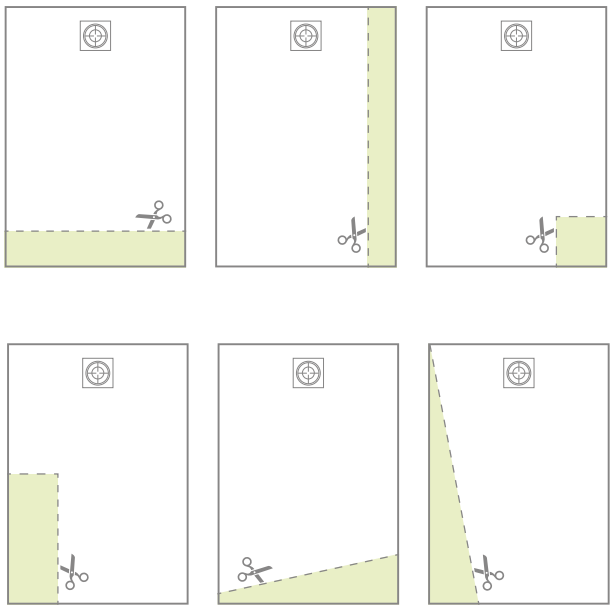

Examples of cutting the **Teos** shower tray

Examples of cutting the **Kyntos** shower tray

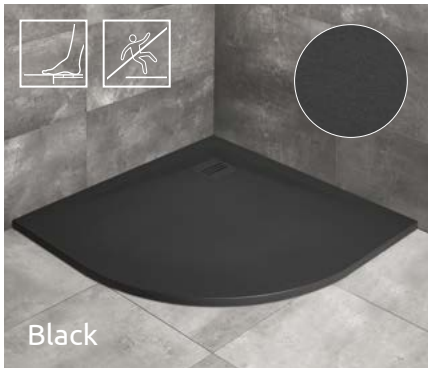

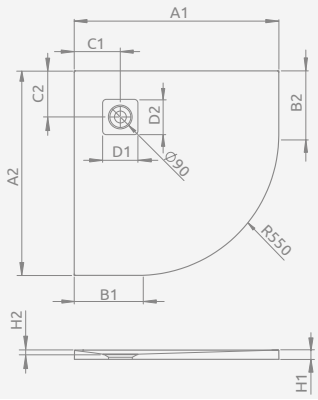

KYNTOS A

To be installed on floor, siphon outlet Ø 90 mm, recommended siphon HS1. The shower tray has a "B" anti-slip certificate issued by TÜV Rheinland® in accordance with the DIN 51097:1992 standard. The shower tray can be cut to the individual sizes (more details on p. 417).

Scheme of connecting the shower tray to the sewage system

A = height of the drain pipe above the floor, 20 mm / 1 meter of pipe
A rigid pipe should be used (instead of the flexible one).

S = depth of the siphon

H3 = height below the hole dedicated for the siphon
(shown in the technical drawing of the shower tray)

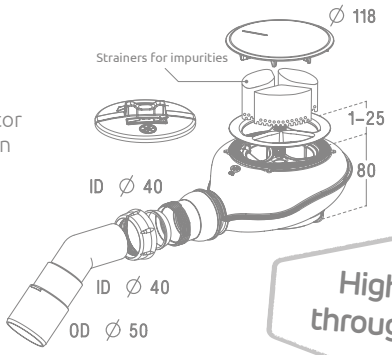

Siphons and accessories

TURBOFLOW 2 TB21

Siphon for shower trays with Ø 90 mm hole; extremely high flow rate; decorative cover in ABS chrome Ø 118 mm; 135° multi-directional connector angle; outlet Ø 40/50 mm; flat– 80 mm. The siphon has an additional strainer that filters impurities.

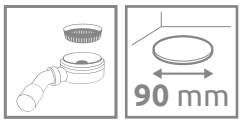

Hole: ∅ **90 mm**
Cover: ∅ **118 mm**
Outlet: ∅ **40/50 mm**
Flat: **80 mm**
Outflow: **38 l/min.**

Art. No.: **TB21**

Highest throughput

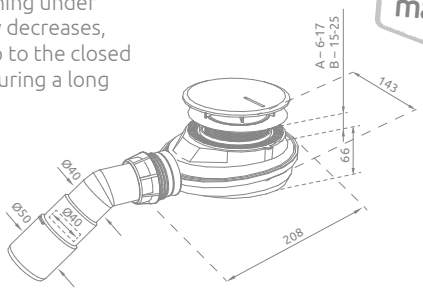

TURBOFLOW TBXS

Siphon with a movable magnetic valve opening under the pressure of water, when the water flow decreases, the magnetic force brings the valve back up to the closed position. The siphon prevents odors even during a long break in use.

Hole: Ø **90 mm**
Cover: Ø **118 mm**
Outlet: Ø **40/50 mm**
Flat: **66 mm**
Outflow: **33 l/min.**

Art. No.: **TBXS**

Low with a magnetic valve

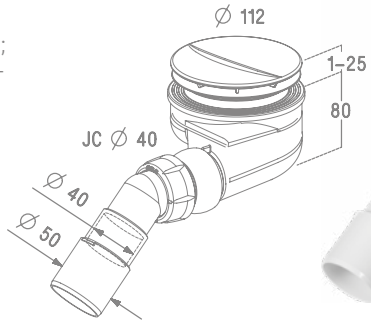

TURBOFLOW TB90

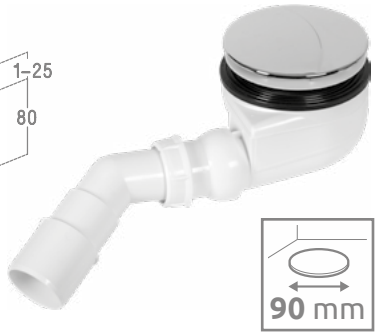

Siphon for shower trays with Ø 90 mm hole; very high flow rate; decorative cover in ABS chrome or white Ø 112 mm; 135° multi-directional connector angle; outlet Ø 40/50 mm; flat – 80 mm.

Hole: ∅ **90 mm**
Cover: ∅ **112 mm**
Outlet: ∅ **40/50 mm**
Flat: **80 mm**
Outflow: **30 l/min.**

Art. No.: Chrome: **TB90P**
Art. No.: White: **TB90P White**

Classic

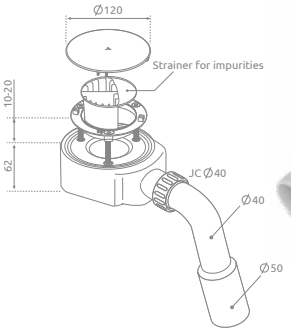

R500

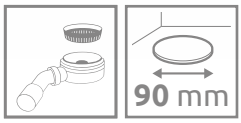

Siphon for shower trays with Ø 90 mm hole; high flow rate; cover in ABS chrome; 135° connector angle; outlet Ø 40/50 mm; flat: 70 mm. The siphon has an additional strainer that filters impurities.

Hole: ∅ **90 mm**
Cover: ∅ **120 mm**
Outlet: ∅ **40/50 mm**
Flat: **70 mm**
Outflow: **25 l/min.**

Art. No.: **R500**

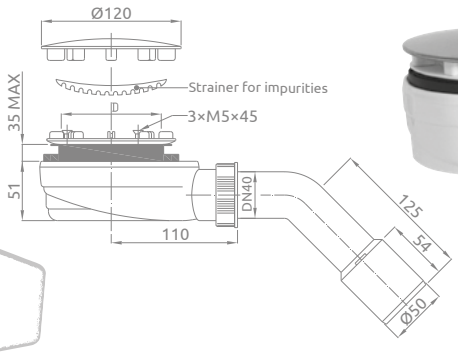

R510

Siphon for shower trays with Ø 90 mm hole; high flow rate; stainless steel cover; 135° connector angle; siphon has an additional sieve filtering impurities. The siphon has an additional strainer that filters impurities.

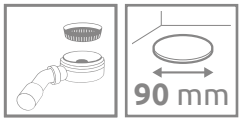

Hole: Ø **90 mm**
Cover: Ø **120 mm**
Outlet: Ø **40/50 mm**
Flat: **51 mm**
Outflow: **25,5 l/min.**

Art. No.: **R510**

Stainless steel cover

Dimensions are given in mm.

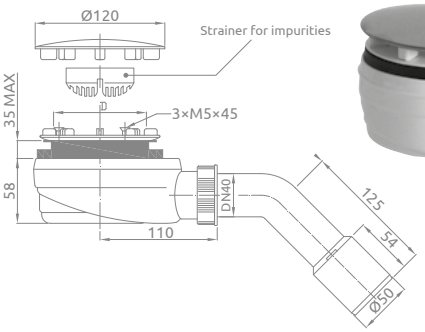

R580

Siphon for shower trays with Ø 90 mm hole; high flowrate; stainless steel cover; 135°connector angle. The siphon has an additional strainer that filters impurities.

Short 58 mm

Hole: Ø **90 mm**
Cover: Ø **120 mm**
Outlet: Ø **40/50 mm**
Flat: **58 mm**
Outflow: **40,5 l/min.**

Art. No.: Stainless steel: **R580**
Art. No.: White: **R580W**
Art. No.: Black: **R580B**

90 mm

R583

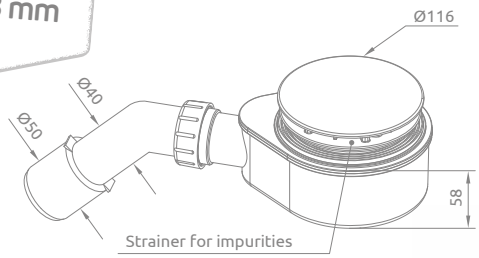

Siphon for shower trays with Ø 90 mm hole, cleaned from the top, with an increased water flow rate of 47 l/min and drain bend 135°. Outlet Ø 40/50 mm. Height 58 mm. The siphon has a strainer that filters impurities.

Short 58 mm

Hole: Ø **90 mm**
Cover: Ø **116 mm**
Outlet: Ø **40/50 mm**
Flat: **58 mm**
Outflow: **47 l/min.**

Art. No.: Gold: **R583G**

90 mm

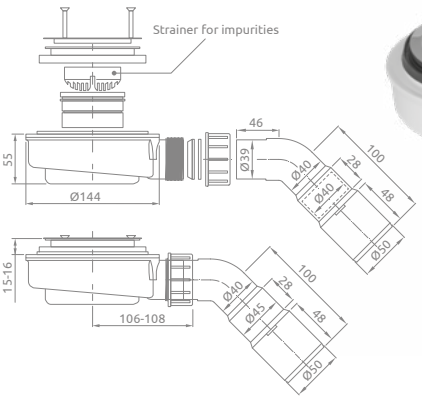

HS1

Siphon for shower trays with Ø 90 mm hole; high flow rate; outlet Ø 40 mm; flat: 55 mm. The siphon has an additional strainer that filters impurities.

For Kyntos and Teos shower trays

Hole: ∅ **90 mm**
Outlet: ∅ **40/50 mm**
Flat: **55 mm**
Outflow: **42 l/min.**

Art. No.: **HS1**

90 mm

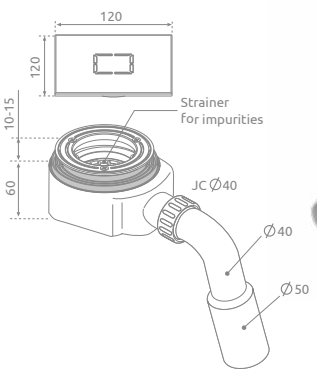

R399

Siphon for Argos shower trays, cleaned from the top with an increased water flow rate, with a chrome-plated square cover with a side length of 120 mm and a 135° outlet bend. The siphon has an additional strainer that filters impurities.

For Argos shower trays

Hole: ∅ **90 mm**
Cover: **120×120 mm**
Outlet: ∅ **40/50 mm**
Flat: **60 mm**
Outflow: **25 l/min.**

Art. No.: **R399**

90 mm

Dimensions are given in mm.

R400 SLIM PLUS

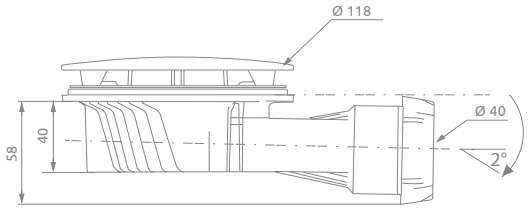

Siphon for shower trays with a silicone membrane impermeable to sounds and unpleasant odors even during a long break in use. Integrated seal guaranteeing 100% tightness. Easily removable waste strainer. Removable membrane enabling cleaning and access to pipes.

Hole: ∅ **90 mm**
Cover: ∅ **118 mm**
Outlet: ∅ **40 mm**
Flat: **40 mm**
Outflow: **34 l/min.**

Art. No.: Chrome: **R400P**
Art. No.: Black: **R400PB**

Lowest, wet 40 mm

90 mm

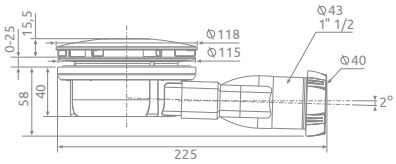

R400W SLIM

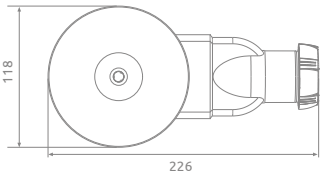

Siphon for shower trays with a chrome cover and compact dimensions.

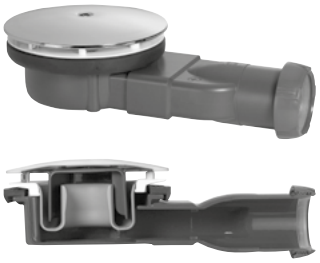

Hole: ∅ **90 mm**
Cover: ∅ **118 mm**
Outlet: ∅ **40 mm**
Flat: **40 mm**
Outflow: **24 l/min.**

Art. No.: **R400W**

Lowest, wet 40 mm

90 mm

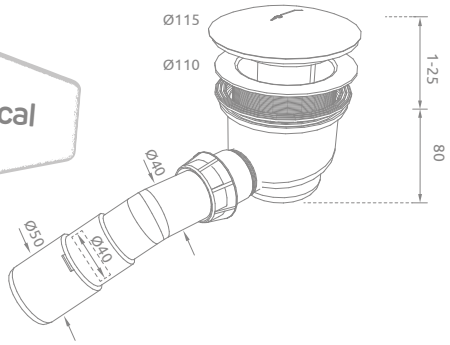

690 P

Siphon for shower trays with Ø 90 mm hole; decorative cover in ABS chrome Ø 115 mm; 135° connector angle; outlet Ø 40/50 mm; flat – 80 mm.

Hole: ∅ **90 mm**
Cover: ∅ **115 mm**
Outlet: ∅ **40/50 mm**
Flat: **80 mm**
Outflow: **25 l/min.**

Art. No.: **690P**

Economical

90 mm

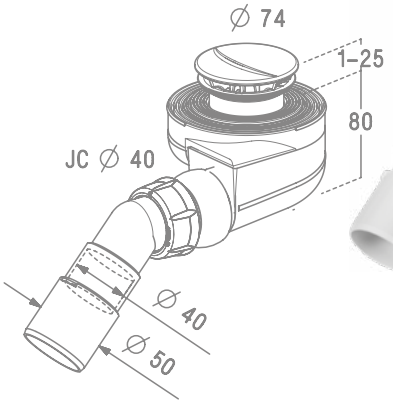

TURBOFLOW TB50

Siphon for shower trays with Ø 50 mm hole; very high flow rate; decorative cover in ABS chrome Ø 74 mm; 135° multi-directional connector angle; outlet Ø 40/50 mm; flat – 80 mm.

Hole: ∅ **50 mm**
Cover: ∅ **74 mm**
Outlet: ∅ **40/50 mm**
Flat: **80 mm**
Outflow: **30 l/min.**

Art. No.: **TB50P**

Classic

50 mm

Dimensions are given in mm.

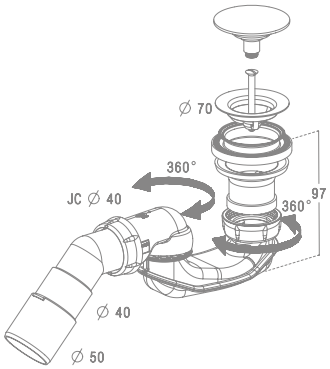

578 P

Pop-up siphon („click-clack" type) with self-cleaning trap for shower trays with Ø 50 mm hole; plug and waste in brass chrome finish, plug diameter – 70 mm; 135° multi-directional connector angle; outlet Ø 40/50 mm.

Hole: ∅ **50 mm**
Cover: ∅ **70 mm**
Outlet: ∅ **40/50 mm**
Flat: **97 mm**
Outflow: **40 l/min.**

Art. No.: **578P**

Clik-Clak

50 mm

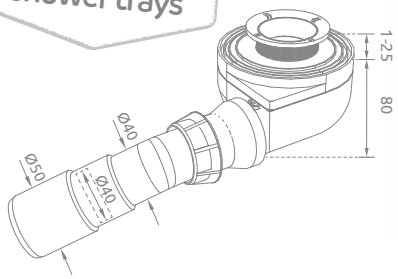

5SL1

Siphon for shower trays Giaros with Ø 50 mm hole; very high flow rate; 135° multi-directional connector angle; outlet Ø 40/50 mm; flat – 80 mm.

Hole: ∅ **50 mm**
Outlet: ∅ **40/50 mm**
Flat: **80 mm**
Outflow: **30 l/min.**

Art. No.: **5SL1**

For Giaros shower trays

50 mm

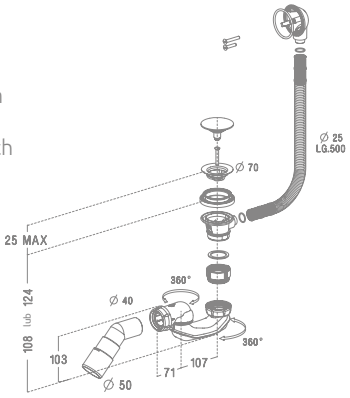

B602R

Pop-up siphon („click-clack" type) with overflow and self-cleaning trap for deep shower trays and bathtubes with Ø 50 mm hole; plug and waste in brass chrome finish, plug diameter – 70 mm; 135° multi-directional connector angle; overflow length – 500 mm; overflow tube connected without screwing; outlet Ø 40/50 mm.

Hole: ∅ **50 mm**
Cover: ∅ **70 mm**
Outlet: ∅ **40/50 mm**
Pipe: **500 mm**
Flat: **108 lub 124 mm**
Outflow: **54 l/min.**

Art. No.: **B602R**

Clik-Clak with overflow

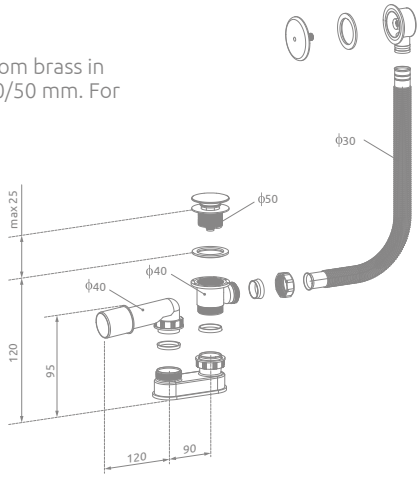

50 mm

R135L

Click-clack siphon with overfl ow. Waste is made from brass in chrome fi nish. Plug diameter – 70 mm. Outlet – 40/50 mm. For deep shower trays with Ø 50 hole. A

Hole: ∅ **50 mm**
Cover: ∅ **70 mm**
Outlet: ∅ **40/50 mm**

Art. No.: **R135L**

50 mm

SQUEEGEE

Universal squeegee to wipe away water and vapour from shower enclosures, ceramic tiles and mirrors.
Set consists of squeegee and hanger. Installation of the squeegee handle does not require drilling holes.

Chrome, Art. No.: **SR-003-01**
Black, Art. No.: **SR-003-54**
Gold, Art. No.: **SR-003-09**

Shower enclosures

Zawierający / containing: szkło hartowane, profile aluminiowe, zawiasy mosiężne z powłoką chromową i inne materiały zgodnie z dokumentacją producenta

Przeznaczony do / destined: higieny osobistej

Wymieniony wyżej produkt odpowiada wymaganiom higienicznym przy spełnieniu następujących warunków / the above-named product is acceptable according to hygienic criteria with the following conditions:
Atest higieniczny nie dotyczy parametrów technicznych i walorów użytkowych wyrobów/ Hygienic certificate does not apply to technical parameters and utility value

Wytwórca / producer:
RADAWAY Sp. z o.o.
62-020 Swarzędz
ul. Rabowicka 59, Jasin

Niniejszy dokument wydano na wniosek / this certificate issued for:
RADAWAY Sp. z o.o.
62-020 Swarzędz
ul. Rabowicka 59, Jasin

Atest może być zmieniony lub unieważniony po przedstawieniu stosownych dowodów przez różnokrotnych stron. Niniejszy atest traci ważność po 2023.02.21 lub w przypadku zmian w receptorze albo w technologii wytwarzania wyrobu.

The certificate may be corrected or cancelled after appropriate motivation. The certificate loses its validity after 2023.02.21 or in the case of changes in composition or in technology of production.

Data wydania atestu higienicznego: 21 lutego 2020
The date of issue of the certificate: 21st February 2020

DEKLARACJA WŁAŚCIWOŚCI UŻYTKOWYCH
NR 01/07/01/2016

1. Niepowtarzalny kod identyfikacyjny wyrobu:
Kabiny prysznicowe, drzwi prysznicowe, ścianki boczne, parawany nawannowe serii ARTA
2. Numer typu, partii lub serii lub jakikolwiek inny element umożliwiający identyfikację wyrobu budowlanego, wymagany zgodnie z art. 11 ust. 4
Kabiny prysznicowe, drzwi prysznicowe, ścianki prysznicowe, parawany nawannowe serii ARTA
3. Przewidziane przez producenta zamierzone zastosowanie lub zastosowania wyrobu budowlanego zgodnie z mającą zastosowanie zharmonizowaną specyfikacją techniczną:
Higiena osobista
4. Nazwa, zastrzeżona nazwa handlowa lub zastrzeżony znak towarowy oraz adres kontaktowy producenta, wymagany zgodnie z art. 11 ust. 5:

radaway

Radaway Sp z o.o.
ul. Rabowicka 59, Jasin
62-020 Swarzędz

5. W stosownych przypadkach nazwa i adres kontaktowy upoważnionego przedstawiciela, którego pełnomocnictwo obejmuje zadania określone w art. 12 ust. 2: nie dotyczy
6. System lub systemy oceny i weryfikacji stałości właściwości użytkowych wyrobu budowlanego określone w załączniku V:
system 4
7. W przypadku deklaracji właściwości użytkowych dotyczącej wyrobu budowlanego objętego normą zharmonizowaną:
EN 14428:2004+A1:2008
Określenie typu produktu oraz prowadzenie zakładowej kontroli produkcji przez producenta
8. W przypadku deklaracji właściwości użytkowych dotyczącej wyrobu budowlanego, dla którego wydana została europejska ocena techniczna: nie dotyczy
9. Deklarowane właściwości użytkowe:

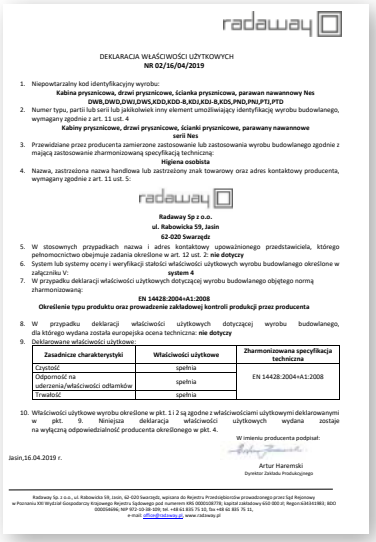

Zasadnicze charakterystyki	Właściwości użytkowe	Zharmonizowana specyfikacja techniczna
Czystość	spełnia	EN 14428:2004+A1:2008
Odporność na uderzenia/właściwości odbiciowe	spełnia	
Trwałość	spełnia	

10. Właściwości użytkowe wyrobu określone w pkt. 1 i 2 są zgodne z właściwościami użytkowymi deklarowanymi w pkt. 9. Niniejsza deklaracja właściwości użytkowych wydana zostaje na wyłączną odpowiedzialność producenta określonego w pkt. 4.

STANDARD OPTIONS

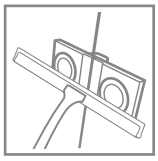

SHOWER ENCLOSURES

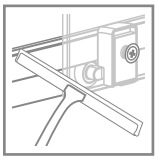

GLASS THICKNESS
Tempered safety glass, thickness:
8 mm, compliant with PN:EN 12150:1

EASYCLEAN® COATING
As a standard, all glass items are covered with the EasyClean® coating that facilitates the process of keeping shower enclosure clean

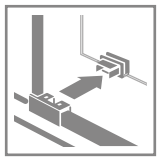

FLUSH-FITTED HINGES OR ROLLERS
Hinges or rollers are flush-fitted with the glass pane – a flat surface facilitates the process of keeping the shower enclosure clean.

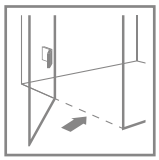

DISABLED FRIENDLY

TILTING THE DOOR
Possibility to unlock and tilt the door to clean the cabin

CHROME+ TECHNOLOGY
Vertical profiles, hinges, handles, support bars are made in Chrome+ technology, which ensures higher gloss

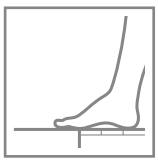

POSSIBILITY OF MOUNTING WITHOUT A THRESHOLD STRIP
More information can be found in the assembly instructions

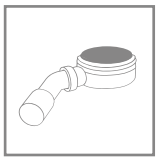

SOFT-CLOSE OPEN SYSTEM
A soft close-open system gently decelerates the door into its final position

SHOWER TRAYS AND DRAIN LINES

THE SHOWER TRAY IS SUITABLE FOR FLUSH WITH THE FLOOR

LOW SIPHON WITH THE POSSIBILITY OF CLEANING FROM THE TOP
(IN SET)

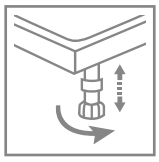

THE SIPHON HAS A STRAINER THAT FILTERS IMPURITIES

HIGH QUALITY MATERIALS
The drain is made of the highest quality stainless steel. Siphon and other elements are made of equally resistant plastics

NON-SLIP
The shower tray has an anti-slip surface.

STABLE LEGS WITH HEIGHT ADJUSTMENT
(IN SET)

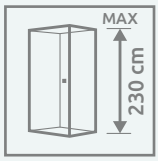

WATERPROOF MEMBRANE COLLAR
Guarantees long and trouble-free use of the product

ADDITIONAL OPTIONS

MADE TO MEASURE
Should you not find in our standard offer a shower enclosure that meets your requirements, there is a possibility to order tailor–made products (details on p. 7 or on our website www.radaway.eu)

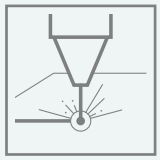

MAXIMUM HEIGHT
Details on p. 16.

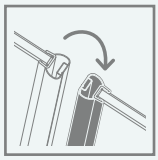

GLASS VARIANTS
Product is available in several glass variants.
Details on p. 11.

PRINT/ENGRAVING ON GLASS
Details on p. 24/28.

REPLACEMENT OF GASKETS
In products marked with this symbol, there is possibility of paid replacement of the transparent gaskets for black ones. Details on p. 17.

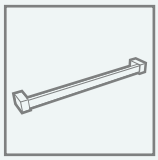

EXTENSION PROFILES
If you can not find suitable shower enclosure or shower door for your bathroom, then you can use extension profiles. Details on p. 21.

Chrome+ OPTION

PROFILE CHROME+
If you can not find suitable shower enclosure or shower door for your bathroom, then you can use extension profiles. Information about the profiles can be found on the page of particular model of the cabin Details on p. 12.

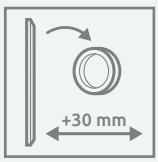

POSSIBILITY OF USING TELESCOPIC SUPPORT BAR
Shower enclosures come in standard with stabilizer mounted to the wall. If the situation in the bathroom does not allow you mount such a stabilizer, there is possibility to buy a telescopic support bar mounted to the ceiling.
Details on p. 72.

TOWEL HANGER
Possibility to order a rail hanger, ideal for hanging a towel.
Details on p. 14.

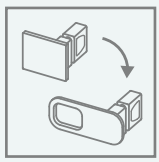

POSSIBILITY OF USING INSIDE BRACKETS
Details on p. 17.

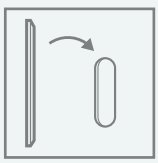

WIDER ENTRANCE
It is possible to extend the entrance by 30 mm by replacing the vertical handle with a round handle.
Details on p. 15.

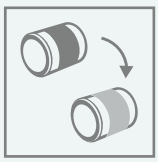

POSSIBILITY OF PAID CONVERSION OF THE HANDLES
Details on p. 16.

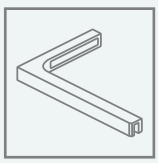

EXCHANGE OF HANDLE FOR A HOLE CUT IN GLASS
Possibility of replacing the standard handle with a 35×120 mm hole cut in the glass pane.
Details on p. 15.

CHANGING THE COLOUR OF THE HANDLES
Please note it clearly in the order and specify the article number of appropriate handle. Details on p. 16.

BIFOLD HANDLE
Additional handle for bifold shower enclosures, shower doors and bathtub screens. Details on p. 14.

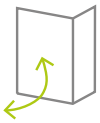

STABILIZER L (SL)
Stabilizer L (SL) is adjustable. It is designed for mounting on glass with a thickness of 6 and 8 mm up to a width of 1200 mm. Details on p. 13.
